Redwire Corporation

(Exact name of registrant as specified in its charter)

Delaware

88-1818410

(State or other jurisdiction of incorporation or organization)

(I.R.S. Employer Identification No.)

**8226 Philips Highway, Suite 101
Jacksonville, Florida**

32256

(Address of Principal Executive Offices)

(Zip Code)

(650) 701-7722

Registrant's telephone number, including area code

Not Applicable

(Former name, former address and former fiscal year, if changed since last report)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common Stock, par value \$0.0001 per share	RDW	New York Stock Exchange

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports); and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	☒	Accelerated filer	☐
Non-accelerated filer	☐	Smaller reporting company	☐
		Emerging growth company	☐

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes ☐ No ☒

The registrant had outstanding 249,992,609 shares of common stock as of August 3, 2026.

PART I. FINANCIAL INFORMATION

Each of the terms the “Company,” “Redwire,” “we,” “our,” “us” and similar terms used herein refer collectively to Redwire Corporation, a Delaware corporation, and its consolidated subsidiaries, unless otherwise stated.

Cautionary Note Regarding Forward-Looking Statements

This Quarterly Report on Form 10-Q contains statements that constitute “forward-looking statements,” within the meaning of the Private Securities Litigation Reform Act of 1995 concerning us and other matters. Words such as “will,” “expect,” “anticipate,” “intend,” “may,” “could,” “should,” “plan,” “project,” “forecast,” “believe,” “estimate,” “outlook,” “trends,” “goals,” “contemplate,” “continue,” “might,” “possible,” “potential,” “predict,” “would” and similar expressions, generally identify these forward-looking statements, but the absence of these words does not mean that a statement is not forward-looking. Forward-looking statements include, among other things, statements relating to our future financial condition, results of operations and/or cash flows, and our projects and related timelines. Forward-looking statements are based upon assumptions, expectations, plans and projections that we believe to be reasonable when made, but which may change over time. These statements are not guarantees of future performance and inherently involve a wide range of risks and uncertainties that are difficult to predict.

Redwire believes it is important to communicate its expectations to its security holders. However, there may be events in the future that Redwire’s management is not able to predict accurately or over which Redwire has no control. The risk factors and cautionary language contained in this report, and other reports and documents filed by Redwire with the Securities and Exchange Commission (the “SEC”), provide examples of risks, uncertainties and events that may cause actual results to differ materially from the expectations described in such forward-looking statements, including among other things:

- our results could be affected by economic uncertainty, including high inflation, market volatility, and the potential worsening of macro-economic conditions;
- geopolitical and macro-economic events and conditions could adversely affect our business, financial condition and operating results;
- tariffs may adversely affect demand for our products and services, and increase our manufacturing costs;
- the failure of financial institutions or transactional counterparties could adversely affect our current and projected business operations and our financial condition and results of operations;
- we operate in evolving industries, have a limited operating history since our acquisition of Redwire Defense Tech Intermediate Holdings, LLC, and its subsidiaries (f/k/a Edge Autonomy Intermediate Holdings, LLC) (“Edge Autonomy”) and have a history of losses to date, which makes it difficult to evaluate our future prospects and the risks and challenges we may encounter;
- if we are unable to successfully integrate recently completed and future acquisitions, including the recent acquisition of Edge Autonomy, or successfully select, execute or integrate future acquisitions into the business and realize anticipated synergies and benefits or do so within the expected timeframe, our operations and financial condition could be materially and adversely affected;
- our ability to grow our business depends on the successful development and continued refinement of our proprietary technologies, products, and service offerings;
- competition with existing or new companies could cause downward pressure on prices, fewer customer orders, reduced margins, the inability to take advantage of new business opportunities, and the loss of market share;
- a limited number of customers make up a high percentage of our revenue;
- we may become involved in litigation from time to time that may materially adversely affect us;
- natural disasters, geopolitical conflicts, or other natural or man-made catastrophic events could disrupt and impact our business;
- adverse publicity stemming from any incident involving Redwire or our competitors could have a material adverse effect on our business, financial condition and results of operations;
- our business involves significant risks and uncertainties that may not be covered by insurance or indemnity;
- our business could be seriously harmed if we fail to respond to commercial industry cycles in terms of our cost structure, manufacturing capacity, and/or personnel needs;
- customers may be unwilling to adopt our offerings;
- any delays in the development, design, engineering and manufacturing of our core offerings may adversely impact our business, financial condition and results of operations;

- unsatisfactory performance of our core offerings could have a material adverse effect on our business, financial condition and results of operations;
- our results of operations and cash flows are substantially affected by our mix of fixed-price, cost-plus and time-and-material type contracts;
- our cash flow and profitability could be reduced if expenditures are incurred prior to the final receipt of a contract;
- we may in the future invest significant resources in developing new offerings and exploring the application of our technologies for other uses and those opportunities may never materialize;
- we may not be able to convert our orders in backlog into revenue;
- we have and in the future may continue to use artificial intelligence in our business, and challenges with properly managing its use could result in reputational harm, competitive harm, and legal liability, and adversely affect our business, financial condition and results of operations;
- our reliance on third-party launch vehicles to launch our spacecraft and customer payloads into space;
- we may experience a total loss of our technology and products and our customers' payloads, if there is an accident on launch or during the journey into space;
- our operating results may fluctuate significantly, which makes our future operating results difficult to predict and could cause our operating results to fall below expectations or any guidance that we may provide;
- our margins and operating results may suffer if we experience unfavorable changes in the proportion of cost-plus-fee or fixed-price contracts in our total contract mix;
- our systems, products, technologies and services and related equipment may have shorter lives than we anticipate;
- cyber-attacks and other security threats and disruptions could have a material adverse effect on our business, financial condition and results of operations;
- our business, financial condition and results of operations are subject to risks resulting from broader geographic operations;
- our net earnings and our net assets could be materially affected by an impairment of goodwill;
- our ability to use net operating loss carryforwards and certain other tax attributes may be limited;
- we are subject to the requirements of the National Industrial Security Program Operating Manual for our facility security clearance, which is a prerequisite to our ability to perform on classified contracts for the U.S. government;
- the U.S. government's budget deficit and the national debt, as well as any inability of the U.S. government to complete its budget process for any government fiscal year and any resulting future government shutdowns, could have an adverse impact on our business, financial condition, results of operations and cash flows;
- we depend significantly on U.S. government contracts, which often are only partially funded, subject to immediate termination, and heavily regulated and audited;
- disputes with our subcontractors or the inability of our subcontractors to perform, or our key suppliers to timely deliver our components, parts or services, could cause our core offerings to be produced or delivered in an untimely or unsatisfactory manner;
- investments in us may be subject to U.S. foreign investment regulations, which may impose conditions or limit certain investors' ability to purchase our common stock, potentially making our common stock less attractive to investors;
- we are subject to stringent U.S. economic sanctions, and trade control laws and regulations, as well as risks related to doing business in other countries, including those related to tariffs, trade restrictions and government actions;
- our business is subject to a wide variety of additional extensive and evolving government laws and regulations and failure to comply with such laws and regulations could have a material adverse effect on our business;
- our reputation and ability to do business may be impacted by the improper conduct of our employees, agents or business partners;
- failure to comply with federal, state and foreign laws and regulations relating to privacy, data protection and consumer protection, or the expansion of current or the enactment of new laws or regulations relating to privacy, data protection and consumer protection, could adversely affect our business and our financial condition;
- we are subject to environmental regulation and may incur substantial costs;
- changes in tax laws or regulations may increase tax uncertainty and adversely affect results of our operations and our effective tax rate;

- if we fail to adequately protect our intellectual property rights or defend against intellectual property claims, our competitive position could be impaired and our intellectual property applications for registration may not be issued or be registered;
- our technology may violate the proprietary rights of third parties, which could have a negative impact on our operations;
- we may require substantial additional funding to finance our operations, but adequate additional financing may not be available when we need it, on acceptable terms or at all;
- there may be sales of a substantial amount of our common stock by our current shareholders and these sales could cause the price of our common stock to fall;
- we may not be able to remain in compliance with the continued listing requirements of the New York Stock Exchange (the “NYSE”);
- we may issue additional common stock or other equity securities which could dilute our shareholders’ ownership interests;
- the trading price of our common stock is and may continue to be volatile; and
- we have identified material weaknesses in internal control over reporting and if we were to identify additional material weaknesses or other deficiencies, or otherwise fail to maintain effective internal control over financial reporting, we may not be able to accurately and timely report our financial results, in which case our business may be harmed and investors may lose confidence in the accuracy and completeness of our financial reports.

Undue reliance should not be placed on these forward-looking statements. The forward-looking statements contained in this report are based on current expectations and beliefs concerning future developments and their potential effects on us. There can be no assurance that future developments affecting us will be those that we have anticipated. We do not undertake any obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required under applicable securities laws.

REDWIRE CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)
(Tabular amounts in thousands of U.S. dollars, except percentages, unit, share, and warrant amounts)

Note A – Description of the Business

Redwire Corporation (the “Company” or “Redwire”) is an integrated space and defense technology company focused on advanced technologies including aerospace infrastructure, autonomous systems and multi-domain operations, leveraging digital engineering and artificial intelligence automation. The Company develops and provides mission critical solutions based on space and defense technology platform offerings for government, commercial and civil customers through both short- and long-duration projects. These include technologies and production capability for next-generation spacecraft, large space infrastructure, microgravity capabilities, combat-proven autonomous systems, optical sensors and radio frequency payloads that provide intelligence, surveillance, and reconnaissance capabilities for U.S. and allied nations across multiple domains. The Company serves both U.S. and international customers. As described in Note R – Segment Reporting, we operate in two business segments: Space and Defense Tech.

Note B – Summary of Significant Accounting Policies

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with United States Generally Accepted Accounting Principles (“U.S. GAAP”) for interim financial statement information and the rules of the Securities and Exchange Commission (“SEC”) for interim reporting. Accordingly, they do not include all of the information and notes required by U.S. GAAP for complete financial statements. The unaudited condensed consolidated balance sheet as of December 31, 2025 was derived from audited financial statements but does not include all disclosures required by U.S. GAAP. These unaudited condensed consolidated financial statements include the accounts of subsidiaries we control and variable interest entities if we are the primary beneficiary. In the opinion of management, the condensed consolidated financial statements include all adjustments, consisting of adjustments associated with acquisition accounting and normal recurring adjustments, necessary for the fair presentation of such financial statements. All intercompany balances and transactions have been eliminated in consolidation. Certain prior year amounts have been reclassified to conform with the current year presentation. These reclassifications had no effect on the reported results of operations.

These unaudited condensed consolidated financial statements should be read in conjunction with the information contained in the Company’s Annual Report on Form 10-K for the year ended December 31, 2025. Interim results are not necessarily indicative of the results that may be expected for a full year.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods.

Management has prepared these estimates using the most current and best available information that is considered reasonable under the circumstances. However, actual results could differ materially from those estimates. Significant accounting policies subject to estimates include, but are not limited to, valuation of goodwill and intangible assets, revenue recognition, income taxes, certain equity-based compensation awards, post-retirement benefit plans, paid-in-kind dividends, and warrant liabilities.

Business Combinations

The Company utilizes the acquisition method of accounting for all transactions and events in which it obtains control over one or more other businesses (even if less than 100% ownership is acquired), to recognize the fair value of all assets acquired and liabilities assumed and to establish the acquisition date fair value as of the measurement date.

While the Company uses its best estimates and assumptions as part of the purchase price allocation process to accurately value assets acquired and liabilities assumed at the business combination date, the estimates and assumptions are inherently uncertain and subject to refinement. As a result, during the measurement period, which may be up to one year from the business combination date, the Company records adjustments to the assets acquired and liabilities assumed, with the corresponding offset to goodwill. For changes in the valuation of intangible assets between the preliminary and final purchase price allocation, the related amortization is adjusted in the period it occurs. Subsequent to the measurement period, any adjustment to assets acquired or liabilities assumed is included in operating results in the period in which the adjustment is identified. Transaction costs that are incurred in connection with a business combination, other than costs associated with the issuance of debt or equity securities, are expensed as incurred.

Contingent consideration is classified as a liability or as equity on the basis of the definitions of a financial liability and an equity instrument; contingent consideration payable in cash is classified as a liability. The Company recognizes the fair value of any

REDWIRE CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)
(Tabular amounts in thousands of U.S. dollars, except percentages, unit, share, and warrant amounts)

contingent consideration that is transferred to the seller in a business combination on the date at which control of the acquiree is obtained. Contingent consideration payments related to acquisitions are measured at fair value each reporting period using Level 3 unobservable inputs (as defined in the Fair Value of Financial Instruments policy below). When reported, any changes in the fair value of these contingent consideration payments are included in contingent earnout expense on the condensed consolidated statements of operations and comprehensive income (loss).

Please refer to Note C – Business Combinations for additional information related to the Company’s business combinations.

Fair Value of Financial Instruments

The Company measures certain financial assets and liabilities, including, but not limited to, contingent consideration, at fair value. A hierarchy of valuation techniques is based on whether the inputs to those valuation techniques are observable or unobservable. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Company’s market assumptions. These two types of inputs have created the following fair-value hierarchy:

- Level 1:** Quoted prices for identical instruments in active markets;
- Level 2:** Quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets; and
- Level 3:** Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

Foreign Currency Translation

The Company’s condensed consolidated financial statements are presented in United States dollars (“USD”), which is the functional currency of the Company. The local currency of the Company’s foreign operations is considered to be the functional currency of those operations, which is primarily the Euro. Assets and liabilities of the Company’s foreign subsidiaries, where the functional currency is the local currency, are translated into USD at exchange rates effective as of the balance sheet date. Revenues and expenses are translated using average exchange rates in effect for the periods presented.

Foreign currency translation adjustments are reported in accumulated other comprehensive income (loss). Realized gains and losses on foreign currency transactions are included in other (income) expense, net on the condensed consolidated statements of operations and comprehensive income (loss).

Cash, Cash Equivalents and Restricted Cash

Cash and cash equivalents includes cash on hand, cash balances with banks and similar institutions, money market funds and all highly liquid investments with an original maturity of three months or less. Restricted cash includes cash balances which are restricted as to withdrawal or usage by contractual agreement and consists of cash-collateralized standby letters of credit for performance guarantees and submitted proposals.

The Company had \$0.8 million and \$0.7 million of restricted cash as of June 30, 2026 and December 31, 2025, respectively, related to standby letters of credit for performance guarantees and submitted proposals which are legally restricted for withdrawal and use. The Company had restricted cash of \$2.1 million as of June 30, 2025. Amounts may be subject to final price adjustments upon delivery and acceptance of the related performance obligations by the customer.

The following table provides a reconciliation of cash, cash equivalents and restricted cash reported on the condensed consolidated balance sheets and the condensed consolidated statements of cash flows as of the following periods:

	June 30, 2026	June 30, 2025
Cash and cash equivalents	\$ 556,967	\$ 76,503
Restricted cash	751	2,056
Total cash, cash equivalents and restricted cash	<u>\$ 557,718</u>	<u>\$ 78,559</u>

REDWIRE CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)
(Tabular amounts in thousands of U.S. dollars, except percentages, unit, share, and warrant amounts)

The table below presents supplemental cash flow information during the following periods:

	Six Months Ended	
	June 30, 2026	June 30, 2025
Supplemental cash flow information:		
Cash paid (received) during the period for:		
Interest	\$ 3,846	\$ 26,591
Non-Cash Investing and Financing Activities:		
Convertible Preferred Stock dividend paid-in-kind	\$ —	\$ 33,285
Equity consideration in acquisition of businesses	—	862,561
Settlement of private warrant liabilities for common stock	18,308	34,963
Exchange of Series A Convertible Preferred Stock for common stock	77,034	2,071
Capital expenditures not yet paid	2,280	2,723

Income taxes paid for the six months ended June 30, 2026 and 2025, respectively, was nominal.

Concentration of Credit Risk

Financial instruments which potentially subject the Company to concentrations of credit risk consist primarily of cash and cash equivalents, certificates of deposit, accounts receivable and contract assets. The Company places its cash and cash equivalents with financial institutions of high-credit quality. At times, such amounts may exceed federally insured limits. Cash and cash equivalents on deposit or invested with financial and lending institutions were \$557.0 million and \$76.5 million, as of June 30, 2026 and 2025, respectively.

The Company provides credit to customers in the normal course of business. The carrying amount of current accounts receivable and contract assets are stated at cost, net of an allowance for credit losses. The Company performs ongoing credit evaluations of its customers' financial condition and limits the amount of credit extended when deemed necessary. The Company maintains an allowance for credit losses to provide for the estimated amount of accounts receivable that will not be fully collected. The Company recognizes the allowance for credit losses at inception of sales and reassesses quarterly based on management's expectation of the asset's collectability. The allowance is based on multiple factors including historical experience with bad debts, the credit quality of the customer base, the aging of such receivables and current macroeconomic conditions. The Company elected the practical expedient, available as part of the adoption of ASU 2025-05 (as defined below), not to consider management's expectations of conditions in the future for current accounts receivable and current contract assets arising from transactions accounted for under Accounting Standards Codification 606 ("ASC 606"), *Revenue from Contracts with Customers*. Substantially all accounts receivable as of June 30, 2026 are expected to be collected in 2026. The Company does not believe there is a significant exposure to credit risk as the majority of the Company's accounts receivable are due from U.S. and foreign governments or large prime contractors of such government entities. As a result, the allowance for credit losses was not material as of June 30, 2026 and December 31, 2025, respectively.

Recently Adopted Accounting Pronouncements

In July 2025, Financial Accounting Standards Board ("FASB") issued Accounting Standard Update ("ASU") 2025-05, *Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses for Accounts Receivable and Contract Assets* ("ASU 2025-05"), which amends ASC 326-20, *Financial Instruments - Credit Losses - Measured at Amortized Cost* to introduce a practical expedient that permits entities to assume that current conditions as of the balance sheet date do not change for the remaining life of current accounts receivable and/or current contract assets arising from transactions accounted for under ASC 606. The standard is effective for annual periods beginning after December 15, 2025, including interim periods within those annual periods. The Company adopted the new standard, effective January 1, 2026, on a prospective basis, and the accounting requirements of this ASU have been reflected in the Company's evaluation of the allowance for accounts receivable in the condensed consolidated financial statements.

Recently Issued Accounting Pronouncements

In September 2025, the FASB issued ASU No. 2025-06, *Targeted Improvements to the Accounting for Internal-Use Software (Subtopic 350-40)*. This ASU removes references to prescriptive and sequential development stages, requiring companies to capitalize internal-use software costs when management commits to funding the software project and it is probable the project will be completed. The ASU will be effective for annual and interim periods beginning January 1, 2028, and can be applied on a prospective, modified prospective, or retrospective basis. We are currently evaluating the potential impact of adoption on the Company's consolidated results

REDWIRE CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)
(Tabular amounts in thousands of U.S. dollars, except percentages, unit, share, and warrant amounts)

of operations, cash flows and financial condition.

In November 2024, the FASB issued ASU No. 2024-03, *Income Statement—Reporting Comprehensive Income—Expense Disaggregation Disclosures (Subtopic 220-40)*. This ASU requires disclosure, in the notes to financial statements, of specified information about certain costs and expenses, including purchases of inventory, employee compensation, depreciation, and intangible asset amortization included in each relevant expense caption. Additionally, the amendment requires a qualitative description of the amounts remaining in the relevant expense captions that are not separately disaggregated quantitatively, and the disclosure of the total amount of selling expenses and, in annual reporting periods, an entity's definition of selling expenses. For public business entities, the new guidance is effective for annual reporting periods beginning after December 15, 2026, and interim reporting periods beginning after December 15, 2027, with early adoption permitted. An entity may apply the amendments prospectively for reporting periods after the effective date or retrospectively to any or all prior periods presented in the financial statements. The Company is currently evaluating the impact of adoption, which is expected to have an impact on disclosures only and no impact on the Company's results of operations, cash flows or financial condition.

Other accounting standards updates adopted and/or issued, but not effective until after June 30, 2026, are not expected to have a material effect on the Company's consolidated financial position, results of operations and/or cash flows.

Note C – Business Combinations

Edge Autonomy Acquisition

On June 13, 2025, the Company acquired 100% of the equity interests in Redwire Defense Tech Intermediate Holdings, LLC and its subsidiaries (f/k/a Edge Autonomy Intermediate Holdings, LLC) ("Edge Autonomy"), a leading provider of field-proven uncrewed airborne system technology (the "Edge Autonomy Acquisition") from Edge Ultimate Holdings, LP, a Delaware limited partnership ("Ultimate Holdings") for cash and the issuance of 49,764,847 shares of the Company's common stock ("Equity Consideration"). Common stock was held back from the Equity Consideration to fund post-closing purchase price adjustments, if any, in the amount of \$5.0 million, valued at a price per share of \$15.07. The fair value of the assets acquired and liabilities assumed as of the acquisition date was \$426.2 million and \$124.4 million, respectively, for total purchase consideration, after certain adjustments, including the fair value of Equity Consideration, of \$1,024.7 million, comprising of \$160.0 million cash paid, \$862.6 million fair value of common stock issued, and \$2.2 million payable to Ultimate Holdings. The Company funded the cash consideration using cash on hand and proceeds from its indebtedness. Refer to Note H – Debt for additional information on the Company's outstanding debt.

The acquisition was accounted for as a business combination, whereby the excess of the consideration paid over the fair value of identifiable net assets was allocated to goodwill. The goodwill reflects the potential synergies and expansion of the Company's offerings across product lines and markets complementary to its existing products and markets. For tax purposes, the goodwill is not deductible. During the six months ended June 30, 2026, the Company recorded \$1.7 million of measurement period adjustments to increase the payable to seller, which increased the balance of goodwill to \$723.0 million. The amount of goodwill for Edge Autonomy as of June 30, 2026 and December 31, 2025, was \$723.0 million and \$721.3 million, respectively.

The results of operations of Edge Autonomy have been included in the Company's consolidated results of operations since the date of acquisition, June 13, 2025 and are reported in our Defense Tech segment. The table below presents the revenues and net income (loss) of Edge Autonomy included in the condensed consolidated statements of operations and comprehensive income (loss) since the acquisition date, for the following periods:

	Three and Six Months Ended	
	June 30, 2025	
Post-acquisition revenues	\$	5,946
Net income (loss)		(34,918)

Pro Forma Financial Data (Unaudited)

The table below presents the pro forma combined results of operations for the Company for the three and six months ended June 30, 2025, as though the acquisition of Edge Autonomy had been completed as of January 1, 2024.

	Three Months Ended		Six Months Ended	
	June 30, 2025		June 30, 2025	
Revenues	\$	113,271	\$	210,023
Net income (loss)		(67,734)		(78,634)

REDWIRE CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)
(Tabular amounts in thousands of U.S. dollars, except percentages, unit, share, and warrant amounts)

The amounts included in the pro forma financial information are based on historical results and do not necessarily represent what would have occurred if the Edge Autonomy Acquisition had taken place as of January 1, 2024, nor do they represent results that may occur in the future. Accordingly, the pro forma financial information should not be relied upon as being indicative of the results that would have been realized had the business combination occurred as of the date indicated or that may be achieved in the future.

The Company incurred nominal acquisition related costs for completed acquisitions during the three and six months ended June 30, 2026. During the three and six months ended June 30, 2025, the Company incurred acquisition related costs for completed acquisitions of \$16.6 million and \$20.4 million, respectively. These expenses are included in transaction expenses on the condensed consolidated statements of operations and comprehensive income (loss).

Note D – Fair Value of Financial Instruments

Cash, cash equivalents and restricted cash, accounts receivable, contract assets, inventories, prepaid expenses and other current assets, accounts payable, accrued expenses, deferred revenue and other current liabilities are reflected on the condensed consolidated balance sheets at amounts that approximate fair value because of the short-term nature of these financial assets and liabilities. Money market funds are highly liquid investments that are valued based on quoted market prices in active markets, which represent a Level 1 measurement within the fair value hierarchy.

The fair value of the Company's debt approximates its carrying value and is classified as Level 2 within the fair value hierarchy as it is based on discounted cash flows using a current borrowing rate.

Private Warrants

In September 2021, the Company issued 7,732,168 private warrants in a transaction exempt from registration under securities regulations. The warrants, which are not listed for trading on a stock exchange, entitle the holder to purchase one share of the Company's common stock at an exercise price of \$11.50 per share, subject to adjustment. The warrants will expire on September 2, 2026, at 5:00 p.m., New York City time, or earlier upon redemption or liquidation. The private warrants were established as a liability at issuance. Classification of the private warrants as liability instruments was based on an analysis of the guidance in accordance with U.S. GAAP and a statement issued by the Staff of the SEC regarding the accounting and reporting considerations for warrants issued by special purpose acquisition companies entitled "Staff Statement on Accounting and Reporting Considerations for Warrants Issued by Special Purpose Acquisition Companies." The Company considered whether the private warrants display the three characteristics of a derivative, and concluded the private warrants meet the definition of a derivative. However, the private warrants fail to meet the equity scope exception and thus are classified as a liability measured at fair value, subject to remeasurement at each reporting period. The changes in fair value of the private warrant liability were an increase of \$14.5 million and \$16.3 million for the three months ended June 30, 2026 and 2025, respectively, and an increase of \$14.8 million and \$2.7 million for the six months ended June 30, 2026 and 2025, respectively. These changes in fair value are recognized as other (income) expense, net in the condensed consolidated statements of operations and comprehensive income (loss).

During the three and six months ended June 30, 2026, 2,300,000 private warrants were exercised on a cashless basis for 1,068,851 shares of the Company's common stock and a nominal amount of private warrants were exercised and converted into shares of the Company's common stock on a one for one basis at the exercise price of \$11.50 per share for proceeds of \$1.5 million. During the six months ended June 30, 2025, 4,631,799 private warrants were exercised on a cashless basis for 2,293,739 shares of the Company's common stock and 467,174 private warrants were exercised and converted into 467,174 shares of the Company's common stock at the exercise price of \$11.50 per share for proceeds of \$5.4 million. Upon exercise, the Company remeasured the fair value of the related private warrants, which was recognized as other (income) expense, net in the condensed consolidated statements of operations and comprehensive income (loss), and then released the associated liability upon issuance of the Company's common stock. Refer to Note J – Warrants and Capital Stock Transactions for additional information.

The private warrants were valued using a modified Black-Scholes OPM. As certain inputs are not observable in the market, the private warrants are classified as Level 3 instruments within the fair value hierarchy. The table below presents the fair value per warrant and

REDWIRE CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)
(Tabular amounts in thousands of U.S. dollars, except percentages, unit, share, and warrant amounts)

the valuation assumptions under the Black-Scholes OPM:

	May 26, 2026 to June 30, 2026 ⁽¹⁾	December 31, 2025	February 25, 2025
Fair value per share	\$3.42 to \$11.34	\$ 1.60	\$ 6.84
Warrants outstanding	202,069 to 2,633,195	2,633,195	5,098,978
Exercise price	\$11.50	\$ 11.50	\$ 11.50
Common stock price	\$12.23 to \$22.04	\$ 7.60	\$ 14.34
Expected option term	0.2 to 0.3 years	0.7 years	1.5 years
Expected volatility	118.37% to 152.70%	104.60 %	82.90 %
Risk-free rate of return	3.68% to 3.78%	3.52 %	4.05 %
Expected annual dividend yield	—%	— %	— %

⁽¹⁾ Represents assumptions used in determining the fair value of warrants upon each exercise and conversion and as of June 30, 2026.

The table below presents the Company's financial instruments measured at fair value on a recurring basis:

		June 30, 2026			
	Balance Sheet Location	Level 1	Level 2	Level 3	Total
Assets:					
Money market funds	Cash, cash equivalents and restricted cash	\$ 401,034	\$ —	\$ —	\$ 401,034
Total assets		\$ 401,034	\$ —	\$ —	\$ 401,034
Liabilities:					
Private warrants	Warrant liabilities	\$ —	\$ —	\$ 692	\$ 692
Total liabilities		\$ —	\$ —	\$ 692	\$ 692

		December 31, 2025			
	Balance Sheet Location	Level 1	Level 2	Level 3	Total
Liabilities:					
Private warrants	Warrant liabilities	\$ —	\$ —	\$ 4,213	\$ 4,213
Total liabilities		\$ —	\$ —	\$ 4,213	\$ 4,213

Changes in the fair value of Level 3 financial liabilities were as follows:

	Private Warrants	Total Level 3
December 31, 2025	\$ 4,213	\$ 4,213
Changes in fair value	14,787	14,787
Settlements	(18,308)	(18,308)
June 30, 2026	\$ 692	\$ 692

Note E – Inventory, net

The inventory balance was as follows:

	June 30, 2026	December 31, 2025
Raw materials	\$ 49,256	\$ 32,634
Work in process	29,136	20,193
Finished goods	6,972	3,020
Inventory, net	\$ 85,364	\$ 55,847

The Company records a reserve for slow-moving inventory as a charge against earnings for all products identified as surplus, slow-moving, or discontinued. The amounts presented above are shown net of inventory reserves of \$2.3 million and \$2.4 million as of June 30, 2026 and December 31, 2025, respectively.

REDWIRE CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)
(Tabular amounts in thousands of U.S. dollars, except percentages, unit, share, and warrant amounts)

Note F – Intangible Assets, net

The intangible assets gross carrying amount and accumulated amortization were as follows:

	June 30, 2026			
	Gross carrying amount	Accumulated amortization	Net carrying amount	Weighted average useful life in years
Finite-lived intangible assets:				
Customer relationships	\$ 47,359	\$ (16,782)	\$ 30,577	16
Technology	290,293	(35,937)	254,356	13
Trademarks	21,072	(3,777)	17,295	8
Internal-use software licenses	22,583	(6,321)	16,262	5
In-process internal-use software	314	—	314	
Indefinite-lived intangible assets:				
Tradenname	300	—	300	
Total intangible assets	<u>\$ 381,921</u>	<u>\$ (62,817)</u>	<u>\$ 319,104</u>	

	December 31, 2025			
	Gross carrying amount	Accumulated amortization	Net carrying amount	Weighted average useful life in years
Finite-lived intangible assets:				
Customer relationships	\$ 47,380	\$ (15,890)	\$ 31,490	16
Technology	293,695	(22,319)	271,376	13
Trademarks	21,072	(3,005)	18,067	8
Internal-use software licenses	17,054	(4,978)	12,076	6
In-process internal-use software	2,844	—	2,844	
Indefinite-lived intangible assets:				
Tradenname	300	—	300	
Total intangible assets	<u>\$ 382,345</u>	<u>\$ (46,192)</u>	<u>\$ 336,153</u>	

There was no impairment recognized related to intangible assets during the three and six months ended June 30, 2026 and 2025, respectively.

Note G – Goodwill

The changes in the carrying amount of goodwill were as follows:

	Gross Goodwill		Accumulated Impairment		Net Goodwill		
	Space	Defense Tech	Space	Defense Tech	Space	Defense Tech	Total

(Tabular amounts in thousands of U.S. dollars, except percentages, unit, share, and warrant amounts)

Note H – Debt

The table below presents details of the Company’s debt as of the following periods and the effective interest rate as of June 30, 2026:

	Effective interest rate	June 30, 2026	December 31, 2025
JPMorgan Term Loan	8.13 %	\$ 48,875	\$ 87,750
Other financing loans	—	—	662
Total debt		48,875	88,412
Less: unamortized discounts and issuance costs		814	3,214
Total debt, net		48,061	85,198
Less: Short-term debt, including current portion of long-term debt		4,500	5,162
Total long-term debt, net		\$ 43,561	\$ 80,036

JPMorgan Chase Credit Agreement

In June 2025, the Company’s wholly owned subsidiary, Redwire Defense Tech Intermediate Holdings, LLC (f/k/a Edge Autonomy Intermediate Holdings, LLC), entered into a credit agreement with JPMorgan Chase Bank, N.A. (the “JPMorgan Credit Agreement”) which included a \$90.0 million term loan that was set to mature on April 28, 2027. The outstanding principal under the JPMorgan Credit Agreement incurred cash interest, which was payable quarterly at a rate equal to the Secured Overnight Financing Rate (“SOFR”) rate plus an applicable per annum rate of 6.5% through December 31, 2025 and 7.0% from January 1, 2026 through maturity. Under the terms of the JPMorgan Credit Agreement, the Company was required to make principal payments in the amount of 1.25% of the original outstanding term loan quarterly until maturity at which time the remaining principal balance would become due in full. The JPMorgan Credit Agreement contained certain customary representations and warranties, affirmative and other covenants and events of default, including among other things, payment defaults, breach of representations and warranties, and covenant defaults. In connection with the issuance of the JPMorgan Credit Agreement, the Company incurred \$4.2 million of fees paid to the lender and debt issuance costs, which were recorded as a discount on the related term loan.

On February 20, 2026, the Company refinanced the existing JPMorgan Credit Agreement by entering into an Amended and Restated Credit Agreement (the “JPM A&R Credit Agreement”) by and among Redwire Defense Tech Intermediate Holdings, LLC, Redwire Defense Tech Intermediate II Holdings, LLC (the “Lead Borrower”), the other borrowers from time to time party thereto, the guarantors from time to time party thereto, the lenders from time to time party thereto and JPMorgan Chase Bank, N.A., as administrative agent and collateral agent. The JPM A&R Credit Agreement, among certain other amendments, provides for a revolving credit facility (the “Revolving Facility”) with commitments in an aggregate principal amount of up to \$30.0 million, maturing May 31, 2029, and access to swing-line loans in an amount of up to \$10.0 million. The JPM A&R Credit Agreement also replaced the term loans under the JPMorgan Credit Agreement with a new \$90.0 million term loan and extended the maturity date of the term loans from April 28, 2027 to May 31, 2029. Concurrent with the close of the JPM A&R Credit Agreement, the Company repaid all the outstanding balances under the JPMorgan Credit Agreement.

On June 30, 2026, the Company entered into a First Amendment (the “Amendment”) to the JPM A&R Credit Agreement by and among the Lead Borrower, the other borrowers from time to time party thereto, the guarantors from time to time party thereto, the lenders from time to time party thereto and JPMorgan Chase Bank, N.A., as administrative agent and collateral agent. The Amendment increased the commitments under the revolving credit facility from \$30.0 million to an aggregate principal amount of up to \$50.0 million. In connection with the Amendment, the Company made a voluntary prepayment on the term loans in the amount of \$40.0 million and as such, reduced the aggregate amount of the term loans to \$50.0 million.

As a result of the JPM A&R Credit Agreement and the Amendment, the Company recognized \$1.2 million and \$3.3 million as a loss on extinguishment for the non-cash write-off of unamortized discount and issuance costs related to the JPMorgan Credit Agreement during the three and six months ended June 30, 2026, respectively. The Company also incurred a nominal amount and \$2.6 million of fees paid to the lender and debt issuance costs during the three and six months ended June 30, 2026, respectively, of which \$1.5 million were recorded as a discount on the term loans, \$0.7 million were recorded as deferred financing fees related to the Revolving Facility and a nominal amount was expensed during the three and six months ended June 30, 2026, respectively. Costs expensed are included as other (income) expense, net on the condensed consolidated statements of operations and comprehensive income (loss). The deferred financing fees related to the Revolving Facility are presented in prepaid and other current assets and non-current assets on the condensed consolidated balance sheets.

Borrowings under the JPM A&R Credit Agreement, as amended, bear interest at a rate per annum equal to, at the borrowers’ option, either (i) the SOFR plus an applicable margin or (ii) a base rate plus an applicable margin. The applicable margin for such loans is

REDWIRE CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)
(Tabular amounts in thousands of U.S. dollars, except percentages, unit, share, and warrant amounts)

determined based on the Lead Borrower's Consolidated Total Net Leverage Ratio and ranges from 3.25% to 3.75% per annum for SOFR loans and 2.25% to 2.75% per annum for base rate loans.

The obligations under the JPM A&R Credit Agreement, as amended, are secured by a first-priority lien on substantially all of the present and future assets of Redwire Defense Tech Intermediate Holdings, LLC, and its existing and future wholly-owned subsidiaries, subject to certain exceptions. The JPM A&R Credit Agreement, as amended, contains customary covenants limiting the ability of the Company and its subsidiaries to, among other things, incur debt or liens, merge or consolidate with others, dispose of assets, make investments, or pay dividends.

As of June 30, 2026 and December 31, 2025, the Company was in compliance with its covenant requirements under the JPM A&R Credit Agreement, as amended.

Adams Street Credit Agreement

On October 28, 2020, the Company entered into a credit agreement with Adams Street Capital (the "Adams Street Credit Agreement"), the terms of which were subsequently modified by various amendments through June 2025. As amended, the Adams Street Credit Agreement included (i) a \$31.0 million term loan commitment, (ii) a \$15.0 million delayed draw term loan, (iii) a \$32.0 million incremental term loan, and (iv) a \$35.0 million revolving credit facility commitment, all of which was set to mature on April 28, 2027.

On December 31, 2025, the Company repaid the remaining outstanding principal and interest balances of the Adams Street term loan, incremental term loan and delayed draw term loan in the aggregate amount of \$75.5 million and \$1.0 million, respectively, with the proceeds received from sales of the Company's common stock through the at-the-market ("ATM") facility. Additionally, on December 31, 2025, the Company also used a portion of the proceeds from the ATM facility to repay the \$30.0 million outstanding balance on the revolving credit facility commitment, which also reduced the facility's commitment to \$35.0 million on the same date. The early repayment of the term loans was treated as extinguishment of debt and the decrease in the revolving credit facility commitment was treated as a modification. As a result, the unamortized discount and issuance costs related to the term loans and a portion of unamortized issuance costs related to the revolving credit facility were written off in the aggregate amount of \$1.0 million as loss on extinguishment of debt in the consolidated statements of operations and comprehensive income (loss) for the year ended December 31, 2025. Refer to Note J – Warrants and Capital Stock Transactions for additional information related to the Company's ATM activity.

The Adams Street Credit Agreement, as amended, contains certain customary representations and warranties, affirmative and other covenants and events of default, including among other things, payment defaults, breach of representations and warranties, and covenant defaults. As of December 31, 2025, the Company was in compliance with its covenant requirements, as amended.

On February 26, 2026, the Company terminated the Adams Street Credit Agreement in accordance with its terms. The Adams Street Credit Agreement was due to mature April 28, 2027. The Company did not incur any termination penalties as a result of such termination; however, the Company recognized a nominal amount as a loss on extinguishment of debt for the non-cash write-off of unamortized issuance costs related the revolving credit facility.

Seller Note

In June 2025, the Company entered into an unsecured promissory note agreement with Ultimate Holdings (an affiliate of AE Industrial Partners and former parent of Edge Autonomy) (the "Seller Note"), which included a note payable of \$100.0 million. The Seller Note was used to finance a portion of the cash consideration of the Edge Autonomy acquisition. The Seller Note had a 3.0% upfront fee that was paid-in-kind and added to the principal amount, which was fully earned at maturity as described below. The Seller Note also had a minimum return payment that was equal to 1.20 times the original principal amount if it was repaid prior to December 31, 2025, less any aggregate cash payments of principal, interest (including paid-in-kind interest) and the upfront fee previously or then being paid in cash. The upfront fee and minimum return payment were recorded as a discount on the related term loan and were being amortized over the term of the loan using the effective interest method. The Seller Note accrued interest at an annual rate of 15.0% through December 31, 2025 and 18.0% thereafter which was payable quarterly either in cash or in-kind, at the Company's option. The Seller Note had a maturity that was the earliest of (i) a change in control or a sale of all or substantially all of the Company's assets; (ii) the date that is ninety-one (91) days following the maturity date of the Adams Street Credit Agreement or JPMorgan Credit Agreement; and (iii) acceleration following an event of default as defined within the agreement. The Seller Note also provided that if the Company received any equity financing net proceeds, 100.0% of such proceeds, to the extent available, must be applied to the prepayment of the Seller Note in cash.

REDWIRE CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)
(Tabular amounts in thousands of U.S. dollars, except percentages, unit, share, and warrant amounts)

In June 2025, the Company completed an equity raise and issued 15,525,000 shares of common stock at a price of \$16.75 per share for net proceeds of \$245.0 million. In accordance with the terms of the Seller Note, the Company used \$120.0 million of these proceeds to repay the Seller Note in full, inclusive of the minimum return payment as described above. As a result of the repayment, the Company recorded interest expense of \$20.0 million for the three and six months ended June 30, 2025.

Note I – Leases

The Company has entered into and acquired long-term leasing arrangements for the right to use various classes of underlying assets including facilities, vehicles and office equipment.

Other Supplemental Information

The table below presents other supplemental information related to the Company's leases for the following periods:

	Three Months Ended			
	June 30, 2026		June 30, 2025	
	Operating Leases	Finance Leases	Operating Leases	Finance Leases
Cash paid for lease liabilities	\$ 2,956	\$ 201	\$ 1,506	\$ 172
Right of use assets obtained in exchange for new lease liabilities	720	142	—	110
	Six Months Ended			
	June 30, 2026		June 30, 2025	
	Operating Leases	Finance Leases	Operating Leases	Finance Leases
Cash paid for lease liabilities	\$ 5,793	\$ 393	\$ 2,959	\$ 326
Right of use assets obtained in exchange for new lease liabilities	6,780	297	1,922	219
	June 30, 2026		June 30, 2025	
	Operating Leases	Finance Leases	Operating Leases	Finance Leases
Weighted average remaining lease term (in years)	5.3	3.3	3.7	3.3
Weighted average discount rate	8.8 %	7.8 %	7.7 %	8.0 %

As of June 30, 2026, the Company had two facility leases that had not yet commenced but require significant future lease obligations in the aggregate amount of \$16.9 million. The contracts were determined to be operating leases, whereby the Company is not required to make rent payments prior to the lease commencement date while construction is completed on the underlying assets. Due to the nature of the work and the amount of the Company's contribution to the construction period costs for the leases, the Company was determined not to be the owner of the assets under construction as the landlords have substantially all of the construction period risks.

Note J – Warrants and Capital Stock Transactions

Public Warrants

In September 2021, the Company issued public warrants that entitle each registered holder to purchase one share of common stock at a price of \$11.50 per share, subject to adjustment. The warrants were set to expire on September 2, 2026, at 5:00 p.m., New York City time, or earlier upon redemption or liquidation. During the six months ended June 30, 2025, 6,738,225 public warrants were exercised and converted into 6,738,225 shares of Company's common stock at the exercise price of \$11.50 per share for proceeds of \$77.5 million. Additionally, during the six months ended June 30, 2025, certain requirements for the Company to call the public warrants were met and 1,450,586 public warrants were redeemed by the Company at \$0.01 per warrant.

As of June 30, 2026 and December 31, 2025, there were no public warrants issued and outstanding, respectively.

Private Warrants

Pursuant to the warrant agreement, a warrant holder is entitled to exercise its warrants only for a whole number of shares of common stock. This means that only a whole warrant can be exercised at a given time by a warrant holder. If the private warrants are held by holders other than the original holders or their respective permitted transferees, the private warrants will be redeemable by the Company and exercisable by the holders. The original holders and their respective permitted transferees have the option to exercise the private warrants on a cashless basis.

REDWIRE CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)
(Tabular amounts in thousands of U.S. dollars, except percentages, unit, share, and warrant amounts)

During the three and six months ended June 30, 2026, 2,300,000 private warrants were exercised on a cashless basis for 1,068,851 shares of the Company's common stock and during the six months ended June 30, 2025, 4,631,799 private warrants were exercised on a cashless basis for 2,293,739 shares of the Company's common stock. The conversion factor was derived by multiplying the amount of common shares underlying the warrants by the excess fair value over the warrant exercise price and then dividing by the fair value. The fair value is defined as the average closing price of the Company's common stock for the ten (10) trading days ending on the third trading day prior to the date on which the notice of exercise was provided to the Company's stock transfer agent. Additionally, during the three and six months ended June 30, 2026, a nominal amount of private warrants were exercised and converted into shares of the Company's common stock on a one for one basis at the exercise price of \$11.50 per share for proceeds of \$1.5 million. During the six months ended June 30, 2025, 467,174 private warrants were exercised and converted into 467,174 shares of the Company's common stock at the exercise price of \$11.50 per share for proceeds of \$5.4 million. Upon conversion and exercise, the Company remeasured the fair value of the related warrants and released the associated liability upon issuance of the Company's common stock. Refer to Note D – Fair Value of Financial Instruments for information on the Level 3 inputs used to value the private warrants.

As of June 30, 2026 and December 31, 2025, respectively, there were 202,069 and 2,633,195 private warrants issued and outstanding, respectively. The private warrants will expire on September 2, 2026, at 5:00 p.m., New York City time, or earlier upon redemption or liquidation.

ATM Facilities

In November 2025, the Company entered into an Equity Distribution Agreement (the "ATM Agreement") by and between the Company, Truist Securities, Inc., J.P. Morgan Securities LLC, BofA Securities, Inc. and TCBI Securities, Inc., doing business as Texas Capital Securities (each a "November Agent" and collectively, the "November Agents"). Pursuant to the terms of the ATM Agreement, the Company was permitted to sell, from time to time through or to the November Agents, as the Company's sales agent and/or as principal, shares of its common stock, having an aggregate gross sales price of up to \$250 million. The sales, if any, of the Company's common stock made under the ATM Agreement were permitted to be made in sales deemed to be "at-the-market offerings" as defined in Rule 415 under the Securities Act of 1933, as amended, including sales made directly on the New York Stock Exchange ("NYSE"), on any other existing trading market for the shares of common stock, or to or through a market maker other than on an exchange. The Company incurred costs associated with the ATM Agreement of \$0.8 million, which were recorded to additional paid-in capital against proceeds received from sales of the Company's common stock under the ATM Agreement. During the six months ended June 30, 2026, the Company sold 6,942,924 shares of its common stock at a weighted average price of \$9.38 for \$65.1 million of gross proceeds. The Company also incurred \$1.6 million of commission fees resulting in \$63.5 million net proceeds. During the three months ended June 30, 2026, the Company terminated the ATM agreement and, as such, had no remaining unused capacity as of June 30, 2026.

In May 2026, the Company entered into an Equity Distribution Agreement (the "May 2026 ATM Facility") by and between the Company, Truist Securities, Inc., J.P. Morgan Securities LLC, BofA Securities, Inc., TCBI Securities, Inc., doing business as Texas Capital Securities, A.G.P./Alliance Global Partners, B. Riley Securities, Inc., Canaccord Genuity LLC, H.C. Wainwright & Co., LLC and Roth Capital Partners, LLC (each a "May Agent" and collectively, the "May Agents"). Pursuant to the terms of the May 2026 ATM Facility, the Company was permitted to sell, from time to time through or to the May Agents, as the Company's sales agent and/or as principal, shares of its common stock, having an aggregate gross sales price of up to \$350 million. The sales, if any, of the Company's common stock made under the May 2026 ATM Facility were permitted to be made in sales deemed to be "at-the-market offerings" as defined in Rule 415 under the Securities Act of 1933, as amended, including sales made directly on the New York Stock Exchange ("NYSE"), on any other existing trading market for the shares of common stock, or to or through a market maker other than on an exchange. The Company incurred nominal costs associated with the May 2026 ATM Facility, which were recorded to additional paid-in capital against proceeds received from sales of the Company's common stock under the May 2026 ATM Facility. During the three and six months ended June 30, 2026, the Company sold 23,986,658 shares of its common stock at a weighted average price of \$14.59 for \$350.0 million of gross proceeds. The Company also incurred \$8.7 million of commission fees resulting in \$341.2 million net proceeds. During the three months ended June 30, 2026, the Company terminated the May 2026 ATM Facility and, as such, had no remaining unused capacity as of June 30, 2026.

In June 2026, the Company entered into an Equity Distribution Agreement (the "June 2026 ATM Facility") by and between the Company, Truist Securities, Inc., J.P. Morgan Securities LLC, BofA Securities, Inc., TCBI Securities, Inc., doing business as Texas Capital Securities, A.G.P./Alliance Global Partners, B. Riley Securities, Inc., Canaccord Genuity LLC, H.C. Wainwright & Co., LLC, KeyBanc Capital Markets Inc. and Roth Capital Partners, LLC (each an "Agent" and collectively, the "Agents"). Pursuant to the terms of the June 2026 ATM Facility, the Company may sell, from time to time through or to the Agents, as the Company's sales agent and/or as principal, shares of its common stock, having an aggregate gross sales price of up to \$500 million. The sales, if any, of the Company's common stock made under the June 2026 ATM Facility may be made in sales deemed to be "at-the-market offerings" as

REDWIRE CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)
(Tabular amounts in thousands of U.S. dollars, except percentages, unit, share, and warrant amounts)

defined in Rule 415 under the Securities Act of 1933, as amended, including sales made directly on the New York Stock Exchange (“NYSE”), on any other existing trading market for the shares of common stock, or to or through a market maker other than on an exchange. The Company incurred nominal costs associated with the June 2026 ATM Facility, which were recorded to additional paid-in capital against proceeds received from sales of the Company’s common stock under the June 2026 ATM Facility. During the three months ended June 30, 2026, the Company sold 9,323,823 shares of its common stock at a weighted average price of \$16.05 for \$149.6 million of gross proceeds. The Company also incurred \$3.0 million of commission fees resulting in \$146.6 million net proceeds. The Company had \$350.4 million of unused capacity under the June 2026 ATM Facility as of June 30, 2026.

Equity Offering

In June 2025, the Company issued 15,525,000 shares of common stock at a price of \$16.75 per share for net proceeds of \$245.0 million (the “Equity Offering”). The shares were issued pursuant to the Company’s Form S-3 filed with the SEC on September 6, 2023. In connection with the issuance of common stock, the Company used a portion of the proceeds to repay the Seller Note in accordance with the terms of the Seller Note. Refer to Note H – Debt for additional information on the Seller Note. In July 2025, the Company issued an additional 600,100 shares of common stock pursuant to the underwriters’ over-allotment option at a price of \$16.75 per share for additional net proceeds of \$9.1 million.

Note K – Income Taxes

The table below presents the Company’s effective income tax rate on pre-tax income from continuing operations for the following periods:

	Three Months Ended		Six Months Ended	
	June 30, 2026	June 30, 2025	June 30, 2026	June 30, 2025
Effective tax rate expense (benefit)	4.8 %	(25.2)%	2.2 %	(24.7)%

The difference in effective tax rate between the three and six months ended June 30, 2026 and 2025 is primarily related to an increase in the valuation allowance on the deferred tax assets in the 2026 period.

The effective tax rate for the six months ended June 30, 2026 differs from the U.S. federal income tax rate of 21.0% primarily due to the increase in the valuation allowance discussed below, foreign and state income taxes, non-deductible expenses including the loss on the change in the fair value of the Company’s private warrant liability and non-deductible compensation costs related to the Edge Incentive Units. The effective tax rate for the six months ended June 30, 2025 differs from the U.S. federal income tax rate of 21.0% primarily due to the valuation allowance on the realization of deferred tax assets.

The Company assesses the deferred tax assets for recoverability on a quarterly basis. In assessing the realizability of deferred tax assets, the Company evaluates whether it is more-likely-than-not that a portion or all of the deferred tax assets will not be realized. The ultimate realization of the deferred tax assets is dependent upon the generation of future taxable income during the periods in which the net operating loss (“NOL”) carryforwards are available. During the six months ended June 30, 2026, the Company increased the valuation allowance. As of June 30, 2026, the Company determined that a portion of its deferred tax assets can be realized and a corresponding valuation allowance has been recorded to reduce the gross deferred tax asset to the amount that is more-likely-than-not to be realized.

On July 4, 2025, the President signed into law the One Big Beautiful Bill Act (the “OBBBA”). The OBBBA makes permanent key elements of the Tax Cuts and Jobs Act, including: (i) 100% bonus depreciation; (ii) the expensing of domestic research; and (iii) adjustments to the limitation on the deduction for business interest. U.S GAAP requires the effects of changes in tax rates and laws on deferred tax balances to be recognized in the period in which the legislation is enacted. The Company evaluated the impact of the OBBBA on its condensed consolidated financial statements and concluded that it does not have a material impact on the Company’s effective tax rate.

Note L – Commitments and Contingencies

Contingencies in the Normal Course of Business

Under certain contracts with the U.S. government and certain governmental entities, contract costs, including indirect costs, are subject to audit by and adjustment through negotiation with governmental representatives. Revenue is recorded in amounts expected to be realized on final settlement of any such audits.

REDWIRE CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)
(Tabular amounts in thousands of U.S. dollars, except percentages, unit, share, and warrant amounts)

Legal Proceedings

The Company is subject to litigation, claims, investigations and audits arising from time to time in the ordinary course of business. Although legal proceedings are inherently unpredictable, the Company believes it has valid defenses with respect to any matters currently pending against it and intends to defend itself vigorously. Excluding pending matters disclosed below, the outcome of these matters, individually and in the aggregate, is not expected to have a material impact on the Company's condensed consolidated financial statements. The Company has established reserves for matters for which the Company believes that losses are probable and can be reasonably estimated. For matters, including certain of those described herein, where the Company has not established a reserve, the ultimate outcome or resolution cannot be predicted at this time, or the amount of ultimate loss, if any, cannot be reasonably estimated. These matters are subject to many uncertainties and the outcome of the individual claims is not predictable with certainty. It is possible that certain of the actions, claims, inquiries or proceedings, including those discussed herein, could be decided unfavorably to the Company or any of its subsidiaries involved. Accordingly, it is possible that an adverse outcome from such a proceeding could exceed the amount accrued in an amount that could be material to the accompanying consolidated financial position, results of operations or cash flows in any particular reporting period. The Company recognizes legal expenses when incurred, unless otherwise disclosed below, as selling, general and administrative expense in the condensed consolidated statements of operations and comprehensive income (loss).

On May 25, 2022, a plaintiff commenced derivative litigation in the United States District Court for the District of Delaware on behalf of the Company against Peter Cannito, Les Daniels, Reggie Brothers, Joanne Isham, Kirk Konert, Jonathan Baliff, and John S. Bolton. That litigation is captioned *Yingling v. Cannito, et al.*, Case No. 1:22-cv-00684-MN (D. Del.). The complaint's allegations are similar to those of a previously settled class action lawsuit filed in December 2021 (*Lemen*), namely, that statements about the Company's business and operations were misleading due to alleged material weaknesses in the Company's financial reporting internal controls. The plaintiff alleges the defendants violated Section 10(b) (and Rule 10b-5 promulgated thereunder) and Section 20(a) of the Exchange Act, breached their fiduciary duty by allowing misleading disclosures to be made, and caused the Company to overpay compensation and bonuses tied to the Company's financial performance. As relief, the plaintiffs are seeking, among other things, compensatory and punitive damages. This litigation had previously been stayed pending resolution of the *Lemen* matter. Subsequent to the announcement of the *Lemen* settlement, the parties entered into a stipulated transfer of this matter to the United States District Court for the Middle District of Florida to be handled by the same judge overseeing the *Lemen* litigation. Shortly after this transfer of venue, the Court entered an administrative stay of the matter pending final resolution of the *Lemen* matter. In light of the final settlement of the *Lemen* matter during August 2025, the stay was lifted, and discovery in this matter has resumed. The defendants maintain that the allegations are without merit. On August 14, 2025, the Company and the individual defendants reached an agreement-in-principle with plaintiff to settle this matter, whereby the Company would adopt certain corporate governance reforms, subject to Court approval of a final settlement agreement. After negotiating these reforms, counsel for plaintiff and counsel for the Company and individual defendants separately, and through mediation, negotiated the attorneys' fees and expenses to be paid to plaintiff's counsel in the amount of \$0.9 million, which was approved in a final order entered on August 4, 2026. The Company has recognized a loss contingency of \$0.9 million and a corresponding \$0.9 million anticipated insurance recovery as of June 30, 2026, which is its best estimate of probable loss and recovery based on the current circumstances. The loss contingency and anticipated recovery is included as other current liabilities and prepaid expenses and other current assets in the condensed consolidated balance sheets, respectively.

Business Combinations

The Company has acquired and plans to continue to acquire businesses with prior operating histories. These acquisitions may have unknown or contingent liabilities, which the Company may become responsible for and could have a material impact on the Company's future operating results and cash flows. In addition, the Company may incur acquisition costs, regardless of whether or not the acquisition is ultimately completed, which may be material to future periods. Refer to Note C – Business Combinations for additional information.

Letters of Credit

The Company enters into letters of credit from time to time issued on its behalf by financial institutions secured by restricted cash. Letters of credit generally are available for draw down in the event the Company does not fulfill its contractual obligations. The Company had outstanding letters of credit of \$0.8 million and \$0.7 million as of June 30, 2026 and December 31, 2025, respectively.

(Tabular amounts in thousands of U.S. dollars, except percentages, unit, share, and warrant amounts)

Note M – Convertible Preferred Stock

The table below presents activity of the Company's Series A Convertible Preferred Stock:

	Shares	Amount
Balance as of December 31, 2025	46,505.13	\$ 77,034
Conversion into common stock	(46,505.13)	\$ (77,034)
Balance as of June 30, 2026	—	\$ —

On October 28, 2022, the Company filed a Certificate of Designation describing the terms and conditions of newly issued Series A Convertible Preferred Stock of the Company, par value \$0.0001 (the "Convertible Preferred Stock"), with 88,000.00 total shares constituting the series. On or around the same date, the Company entered into investment agreements with (i) AE Industrial Partners Fund II, LP ("AEI Fund II") and AE Industrial Partners Structured Solutions I, LP ("AEI Structured Solutions", and together with AEI Fund II, ("AEI")), (ii) BCC Redwire Aggregator, LP ("Bain Capital") and (iii) various investors (collectively, the "Additional Investors," and together with AEI and Bain Capital, the "Investors"). Pursuant to the investment agreements, the Company sold an aggregate of 81,250.00 shares ("Purchased Shares") of Convertible Preferred Stock for an aggregate purchase price of \$81.25 million, or \$76.4 million net of issuance costs.

Based on an evaluation of the investment agreements, the Company determined that the Convertible Preferred Stock is contingently or optionally redeemable and, therefore, does not require liability classification. However, due to the Convertible Preferred Stock being redeemable at the option of the holder or upon a fundamental change, which includes events that are not fully within the Company's control, it was determined that the Convertible Preferred Stock should be classified as one line item in temporary (mezzanine) equity on the Company's condensed consolidated balance sheets.

Dividends on the Convertible Preferred Stock were permitted to be paid either in cash or in kind in the form of additional shares of Convertible Preferred Stock (such payment in kind, "PIK"), at the option of the Company, subject to certain exceptions. If paid in cash, such dividends would be paid at a rate of 13% per annum, subject to certain adjustments and exceptions or, if the Company issues PIK dividends, at a rate of 15% per annum, subject to certain adjustments and exceptions. On May 1, 2026, in accordance with the Convertible Preferred Stock Certificate of Designation, the Company paid the dividend due in cash for an aggregate amount of \$3.0 million to holders of record as of April 15, 2026.

During the three and six months ended June 30, 2026, AEI, at its option, converted all 46,505.13 of their remaining shares of the Company's Convertible Preferred Stock, in accordance with the Convertible Preferred Stock Certificate of Designation, into 15,247,586 shares of the Company's common stock, respectively, based on the accrued value (defined as the initial value plus accumulated paid and unpaid dividends) as of the conversion date and a conversion ratio of \$3.05. AEI subsequently sold such shares of common stock; therefore, AEI holds no shares of the Convertible Preferred Stock. As of June 30, 2026, the Company had no outstanding shares of Convertible Preferred Stock.

During 2025, Bain Capital, at its option, converted all of their remaining shares of Convertible Preferred Stock into shares of the Company's common stock and subsequently sold such shares of common stock. As such, Bain Capital no longer holds shares of the Company's common stock or Convertible Preferred Stock.

Liquidation Preference

The Convertible Preferred Stock ranked senior to the Company's common stock. In the event of any liquidation or winding up of the Company, the holders of the Convertible Preferred Stock were entitled to receive in preference to the holders of the Company's common stock the greater of (a) the greater of (i) two times the Initial Value (defined as \$1,000 per share) and (ii) the Initial Value plus accrued and unpaid dividends, whether or not declared, and (b) the amount that would have been received based on the if-converted Accrued Value, defined as Initial Value plus accrued and unpaid dividends, whether or not declared. As of June 30, 2026, there were no outstanding shares of Convertible Preferred Stock and, therefore, no liquidation preference. As of December 31, 2025, the liquidation preference of the Convertible Preferred Stock was \$118.4 million.

REDWIRE CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)
(Tabular amounts in thousands of U.S. dollars, except percentages, unit, share, and warrant amounts)

Contract Balances

The table below presents the contract assets and contract liabilities included on the condensed consolidated balance sheets for the following periods:

	June 30, 2026	December 31, 2025
Contract assets	\$ 72,045	\$ 44,019
Contract liabilities	\$ 84,970	\$ 60,119

The increase in contract assets during 2026 was primarily driven by production incurred on related contracts resulting in revenue recognized and the timing of billable milestones occurring during the six months ended June 30, 2026.

The increase in contract liabilities during 2026 was primarily driven by increased bookings with advanced payments during the six months ended June 30, 2026. Revenue recognized in the six months ended June 30, 2026 that was included in the contract liability balance as of December 31, 2025 was \$47.1 million. Revenue recognized in the six months ended June 30, 2025 that was included in the contract liability balance as of December 31, 2024 was \$55.6 million.

For revenue recognized over time, the Company evaluates the contract value and cost estimates at completion (“EAC”) for performance obligations at least quarterly and more frequently when circumstances significantly change. Due to the nature of the work required to be performed on many of the Company’s performance obligations, the estimate of total revenue and cost at completion is complex, subject to many variables and requires significant judgment by management on a contract-by-contract basis. As part of this process, management reviews information including, but not limited to, labor productivity, the nature and technical complexity of the work to be performed, availability and cost volatility of materials, subcontractor and vendor performance, volume assumptions, inflationary trends, and schedule and performance delays.

When the Company’s estimate of total costs to be incurred to satisfy a performance obligation exceeds the expected revenue, the Company recognizes the loss immediately by recording a loss reserve which is included in other current liabilities on the condensed consolidated balance sheets. When the Company determines that a change in estimate has an impact on the associated profit of a performance obligation, the Company records the cumulative positive or negative adjustment in the consolidated statement of operations and comprehensive income (loss). Changes in estimates and assumptions related to the status of certain long-term contracts may have a material effect on the Company’s operating results.

Net EAC adjustments can have a significant effect on reported revenues, cost of sales and gross profit. The below table summarizes the favorable (unfavorable) impact on gross profit from the net EAC adjustments for the following periods:

	Three Months Ended		Six Months Ended	
	June 30, 2026	June 30, 2025	June 30, 2026	June 30, 2025
Net EAC adjustments, before income taxes	\$ 4	\$ (25,201)	\$ (1,098)	\$ (28,299)
Net EAC adjustments, net of income taxes	4	(18,850)	(1,122)	(21,309)
Net EAC adjustments, net of income taxes, per diluted share	—	(0.21)	(0.01)	(0.26)

The net unfavorable EAC adjustments for the six months ended June 30, 2026 were primarily due to \$10.4 million net unfavorable adjustments in the Space segment as a result of an increase in estimates made for the programmatic and technical assumptions based on the nature and technical complexity of the work to be performed to meet customer specifications. This was partially offset by \$9.3 million of net favorable adjustments in the Defense Tech segment, inclusive of the reversal of loss reserves in the amount of \$6.7 million. The net unfavorable EAC adjustments for the six months ended June 30, 2025 were primarily due to a \$14.7 million unfavorable adjustment, including a \$7.2 million loss reserve related to a program in the Company’s Defense Tech segment as a result of an increase in estimates made for the programmatic and technical assumptions based on the nature and technical complexity of the work to be performed to meet customer specifications. The net unfavorable EAC adjustments in 2025 were also due to production delays, additional unplanned labor and increased production costs as it relates to the development of new technologies required to meet customer specifications in the Company’s Space segment.

(Tabular amounts in thousands of U.S. dollars, except percentages, unit, share, and warrant amounts)

Remaining Performance Obligations

As of June 30, 2026, the aggregate amount of the transaction price allocated to remaining performance obligations for contracts with an original duration greater than one year was \$435.3 million, of which the Company expects to recognize approximately 64% as revenue within the next 12 months and the balance thereafter.

Note O – Equity-Based Compensation

Incentive Units

The Company's former parent, AE Red Holdings, LLC (formerly known as Redwire Holdings, LLC) ("Holdings") adopted a written compensatory benefit plan (the "Class P Unit Incentive Plan") to provide incentives to existing or new employees, officers, managers, directors, or other service providers of the Company or its subsidiaries in the form of Holdings' Class P Units ("Incentive Units"). As amended, the Tranche I and the Tranche III Incentive Units became fully vested in 2021. Holdings also amended the Class P Unit Incentive Plan so that the Tranche II Incentive Units would vest on any liquidation event, as defined in the Class P Unit Incentive Plan, rather than only upon consummation of the sale of Holdings, subject to the market-based condition stipulated in the Class P Unit Incentive Plan prior to its amendment. During the six months ended June 30, 2026, the market-based vesting condition for Tranche II was met. All compensation expense was recognized during 2021 and 2022 and as of June 30, 2026, all Tranches were fully vested.

The former parent of Edge Autonomy, Ultimate Holdings, adopted a written compensatory benefit plan (the "Edge Incentive Unit Plan") to provide incentives to existing or new employees, officers, managers, directors, or other service providers of Edge Autonomy or its subsidiaries in the form of Ultimate Holdings' Class A and B Units ("Edge Incentive Units"). In June 2025, subsequent to the Edge Autonomy acquisition, Ultimate Holdings amended the Edge Incentive Unit Plan, which caused the Tranche I Edge Incentive Units to vest as of the amended date, the Tranche II Edge Incentive Units to vest on the first anniversary of the Edge Autonomy acquisition date, and the Tranche III Edge Incentive Units to vest on the second anniversary of the Edge Autonomy acquisition date. In connection with the amended Edge Incentive Unit Plan the Company determined the weighted average fair value at the modification date of the Edge Incentive Units as \$13.94 per unit using Black-Scholes OPM with the following assumptions:

	June 23, 2025
Strike price	\$1.00 to \$7.71
Redwire common stock price	\$15.36
Time to exit	1.52 to 2.52 years
Expected volatility	94.00% to 89.30%
Risk-free rate of return	3.88% to 3.78%
Expected annual dividend yield	— %

Both Tranche II and III vesting is subject to the employee's continued employment with the Company. The fair value determined at the date of the amendment of the Edge Incentive Unit Plan was immediately recognized as compensation expense for Tranche I. Compensation expense for Tranche II and III is being derived over the service period of one and two years, respectively, and recognized on a straight-line basis. During the six months ended June 30, 2026, an acceleration clause for Tranche II and III was met and, as such, both Tranches were considered fully vested as of June 30, 2026, with no remaining service requirement. The Company recognized the remaining \$42.5 million of compensation cost during the six months ended June 30, 2026 due to the accelerated vesting of Tranche II and III. There is no remaining expense related to the Edge Incentive Units as of June 30, 2026.

2021 Omnibus Incentive Plan

Shares of the Company's stock reserved for grants under the 2021 Omnibus Incentive Plan (the "Plan") were 16,964,852 and 13,126,536 as of June 30, 2026 and December 31, 2025, respectively. Incentive stock options may only be granted to employees and officers employed by the Company. The Plan appoints the Board, the Compensation Committee or such other committee consisting of two or more individuals appointed by the Board to administer the Plan. The Company issues stock awards under the Plan in the form of incentive units, non-qualified stock options, time-based restricted stock units, and performance-based restricted stock units.

Stock Options

The Company's Plan authorizes the grant of stock options (incentive and non-qualified) to purchase shares of the Company's common stock with a contractual term of 10 years. The options vest over a three-year term as follows: 33.3% on the first anniversary of the grant date, 33.3% on the second anniversary of the grant date, and 33.4% on the third anniversary of the grant date. Vesting is contingent upon continued employment with or service to the Company; both the unexercised vested and unvested portions of an

REDWIRE CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)
(Tabular amounts in thousands of U.S. dollars, except percentages, unit, share, and warrant amounts)

option will be immediately forfeited and canceled if employment or service ceases to the Company. The Company recognizes equity-based compensation expense for the options equal to the fair value of the awards on a straight-line basis over the requisite service period and recognizes forfeitures as they occur. The fair value of options granted under the Plan is estimated on the grant date under the Black-Scholes OPM.

The Company did not grant any options under the Plan during the three months ended June 30, 2026 and 2025 and there were no forfeitures or expirations of stock options during the six months ended June 30, 2026.

The table below presents the activity of stock options under the Plan:

	Number of Options	Weighted-Average Grant Date Fair Value per Share	Weighted-Average Exercise Price per Share	Weighted-Average Remaining Contractual Term (Years)
Outstanding as of December 31, 2025	1,729,272	\$ 2.65	\$ 6.99	6.04
Exercised	(415,496)	2.67	7.17	
Outstanding as of June 30, 2026	1,313,776	\$ 2.64	\$ 6.93	5.55

As of June 30, 2026, there was no remaining unrecognized compensation cost related to stock options granted under the Plan and there were 1,313,776 stock options that were vested and exercisable. The intrinsic value of all options outstanding and exercisable at June 30, 2026 and December 31, 2025 was \$7.0 million and \$3.4 million, respectively.

Performance-based Restricted Stock Units

The Plan authorizes the grant of performance-based restricted stock units (“PSUs”). The PSUs generally vest upon completion of a three-year period (“Performance Period”). For awards granted in 2023 and 2024, the number of shares, if any, that are ultimately awarded is contingent upon the Company’s closing price per share at the end of the Performance Period and continued employment or service to the Company. For awards granted in 2025, the number of shares, if any, that are ultimately awarded is contingent upon the Company’s share performance compared to the Russell Index 2000 Total Return for the period of January 1, 2025 through December 31, 2027 and continued employment with or service to the Company. The PSU awards allow the grantee to earn between 0% and 200% of the target award based on the Company’s closing stock price per share at the end of the Performance Period. The performance share payout is based on a market condition, and as such, the awards are valued using a Monte Carlo simulation model on the grant date. The model generates the fair value of the award at the grant date, which is then recognized as compensation expense on a straight-line basis over the requisite service period. The Company recognizes forfeitures as they occur.

During the six months ended June 30, 2026, the Company did not grant any PSUs under the Plan.

The table below presents the activity of PSUs under the Plan:

	Number of PSUs	Weighted-Average Grant Date Fair Value per Share	Weighted-Average Remaining Contractual Term (in Years)	Aggregate Intrinsic Value
Outstanding as of December 31, 2025	1,050,057	\$ 18.45	1.3	\$ 7,980
Forfeited	(37,848)	15.51		
Outstanding as of June 30, 2026	1,012,209	\$ 18.45	0.8	\$ 12,379

As of June 30, 2026, total unrecognized compensation cost related to unvested PSUs granted under the Plan was \$6.3 million and is expected to be recognized over a weighted-average period of 0.8 years.

Restricted Stock Units

Restricted stock units (“RSUs”) awarded under the Plan follow the same vesting conditions as the options described above and are generally subject to forfeiture in the event of termination of employment prior to vesting dates. The Company recognizes equity-based compensation expense for the RSUs equal to the grant date fair value of the awards on a straight-line basis over the requisite service period and recognizes forfeitures as they occur.

During the six months ended June 30, 2026, the Company granted 179,621 RSUs under the Plan to certain employees and non-employee directors pursuant to the Plan. The RSUs granted to employees follow the vesting terms and conditions as described above for stock options and the RSUs granted to non-employee directors vest over one year. The weighted average grant date fair value of these awards was \$13.09 per share.

REDWIRE CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)
(Tabular amounts in thousands of U.S. dollars, except percentages, unit, share, and warrant amounts)

The table below presents the activity of RSUs under the Plan:

	Number of RSUs	Weighted-Average Grant Date Fair Value per Share	Weighted-Average Remaining Contractual Term (in Years)	Aggregate Intrinsic Value
Unvested as of December 31, 2025	1,967,811	\$ 13.49	1.1	\$ 14,955
Granted	179,621	13.09		
Vested	(70,812)	12.71		
Forfeited	(73,230)	9.29		
Unvested as of June 30, 2026	2,003,390	\$ 13.50	0.7	\$ 24,501

As of June 30, 2026, total unrecognized compensation cost related to unvested RSUs granted under the Plan was \$12.9 million and is expected to be recognized over a weighted-average period of 1.3 years.

Employee Stock Purchase Plan

On September 2, 2021, the Company's Board adopted the Redwire Corporation 2021 Employee Stock Purchase Plan (the "ESPP") which authorizes the grant of rights to purchase common stock of the Company to employees, officers and directors (if they are otherwise employees) of the Company. Shares of the Company's common stock reserved for grants under the ESPP were 5,270,181 and 3,351,023 as of June 30, 2026 and December 31, 2025, respectively. The ESPP appoints the Compensation Committee to administer the ESPP. Under the ESPP, each offering has an enrollment period during which each eligible employee has the option to enroll allowing the eligible employee to purchase shares of the Company's common stock at the end of the offering period. Each offering period under the ESPP is generally for five months, which can be modified from time to time. Subject to limitations, each participant will be permitted to purchase a number of shares determined by dividing the employee's accumulated payroll deductions for the offering period by the applicable purchase price. The applicable purchase price is calculated as an amount equal to 85% of the fair market value of the Company's common stock at either the beginning or end of each offering period, whichever is less. A participant must designate in the enrollment package the percentage (if any) up to 15% of compensation to be deducted during that offering period for the purchase of stock under the ESPP, subject to certain limitations. As of June 30, 2026, the Company had five completed offering periods and no active offering period.

The ESPP is considered a compensatory plan with the related compensation cost expensed over the five-month offering period. The Company utilizes the Black-Scholes OPM to compute the fair market value of shares under the ESPP for each offering period. As of June 30, 2026, an aggregate of 562,626 shares had been purchased and 4,707,555 shares were available for future sales under the ESPP.

Note P – Net Income (Loss) per Common Share

The table below presents a reconciliation of the basic and diluted net income (loss) per share that were computed for the following periods:

	Three Months Ended		Six Months Ended	
	June 30, 2026	June 30, 2025	June 30, 2026	June 30, 2025
Numerator:				
Net income (loss)	\$ (40,971)	\$ (96,979)	\$ (117,473)	\$ (99,927)
Less: dividends on Convertible Preferred Stock	504	29,739	2,016	33,179
Net income (loss) available to common shareholders	\$ (41,475)	\$ (126,718)	\$ (119,489)	\$ (133,106)
Denominator:				
Weighted-average common shares outstanding:				
Basic and diluted	220,466,669	89,554,940	207,143,490	80,424,270
Net income (loss) per common share:				
Basic and diluted	\$ (0.19)	\$ (1.41)	\$ (0.58)	\$ (1.66)

Net income (loss) available to common shareholders (the numerator) is calculated by deducting both dividends declared and accumulated, regardless of the form of payment, during the period from Net income (loss) as presented on the condensed consolidated statements of operations and comprehensive income (loss).

Basic net income (loss) per common share is computed by dividing net income (loss) available to common shareholders by the weighted-average number of common shares outstanding during the period. Diluted net income (loss) per common share is computed by dividing net income (loss) available to common shareholders by the weighted-average number of common shares and common equivalent shares outstanding for the periods presented using the treasury-stock method or, for participating securities, the if-converted method or two-class method, whichever is more dilutive. Common equivalent shares outstanding includes the dilutive effects from the assumed issuance, exercise or conversion of warrants, equity-based awards, and the Convertible Preferred Stock, except when antidilutive.

Because the Company had a net loss for all periods presented, the Company did not have any dilutive securities and/or other contracts that could, potentially, be exercised or converted into shares of common stock and then share in the earnings of the Company. As a result, diluted net income (loss) per common share is the same as basic net income (loss) per common share for the periods presented. Please refer to Note D – Fair Value of Financial Instruments, Note J – Warrants and Capital Stock Transactions, Note M – Convertible Preferred Stock, and Note O – Equity-Based Compensation for additional information on the Company's warrants, Convertible

Preferred Stock, and equity-based compensation awards, respectively.

Note Q – Related Parties

A customer of the Company, Related Party A, is a related party because Kirk Konert, a member of the Company’s Board, also serves on the board of directors for the customer effective as of the second quarter of 2022.

A customer of the Company, Related Party B, is a related party because members of the Company’s Board, Kirk Konert, Reggie Brothers, and James McConville, also serve on the board of directors for this customer.

A customer of the Company, Related Party C, is a related party because Frank Calvelli, a member of the Company’s Board, also serves on the board of directors for this customer.

The table below presents details of the Company’s related party transactions included in the condensed consolidated balance sheets and the condensed consolidated statements of operations and comprehensive income (loss) for the following periods:

				As of							
				June 30, 2026	December 31, 2025						
Accounts receivable:											
Related Party A				\$	437	\$	330				
Related Party B					—		45				
				\$	437	\$	375				
				Three Months Ended		Six Months Ended					
				June 30, 2026	June 30, 2025	June 30, 2026	June 30, 2025				
Revenues:											
Related Party A				\$	—	\$	(96)	\$	—	\$	896
Related Party B					28		645		190		1,425
Related Party C ⁽¹⁾					167		—		416		—
				\$	195	\$	549	\$	606	\$	2,321

⁽¹⁾ While revenue may have been generated during each of the periods presented, amounts are only disclosed for the periods in which the customer was a related party.

In the normal course of business, the Company participates in related party transactions with certain vendors and customers where AEI maintains a significant ownership interest and/or can exhibit significant influence on the operations of such parties. During the three months ended June 30, 2026, AEI’s ownership of the Company significantly decreased to less than 1% and AEI was no longer considered a related party as of June 30, 2026. For the three and six months ended June 30, 2026 and 2025, respectively, transactions with other companies in AEI’s investment portfolio, not separately disclosed, did not have a material impact on the Company’s condensed consolidated financial statements.

Please refer to Note M – Convertible Preferred Stock, for related party transactions associated with the Company’s debt and Convertible Preferred Stock.

Note R – Segment Reporting

Operating segments are defined as components of an entity for which separate financial information is available and regularly reviewed by the Chief Operating Decision Maker (“CODM”) in deciding how to allocate resources and in assessing performance. The Company’s CODM is its Chief Executive Officer.

During the fourth quarter of 2025, the Company reorganized its segment structure to align with the strategic offerings of each business segment and the way the CODM assesses performance and makes capital allocation decisions. The Company previously operated in one operating segment and one reportable segment. Prior period segment information has been revised to reflect the reorganized segment structure.

The Company operates in two operating segments and two reportable segments, Space and Defense Tech. The Space segment develops and provides next-generation spacecraft, large infrastructure, and microgravity capabilities to serve civil, national security,

REDWIRE CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)
(Tabular amounts in thousands of U.S. dollars, except percentages, unit, share, and warrant amounts)

and commercial space customers. The Defense Tech segment develops and provides combat proven autonomous systems, optical sensors and radio frequency payloads that provide intelligence, surveillance, and reconnaissance capabilities for U.S. and allied nations across multiple domains.

The CODM assesses segment performance and decides how to allocate resources based on Segment Adjusted EBITDA, a non-GAAP measure, defined as income (loss) before taxes, excluding, depreciation and amortization, impairment expense, transaction expenses, acquisition integration costs, acquisition earnout costs, purchase accounting fair value adjustment related to deferred revenue and inventory, severance costs, disposal of long-lived assets, equity-based compensation and gains on sale of joint ventures, net of costs incurred. Segment Adjusted EBITDA also excludes intra- and inter-segment sales and costs and corporate pushdown costs. Total asset information is not included in the following summary since the CODM does not regularly review such information for the reportable segments.

The Company has intra- and inter-segment sales and costs, which are eliminated in the reportable Segment Adjusted EBITDA figures below. The Company had \$0.7 million and \$1.7 million of inter-segment sales and costs during the three months ended June 30, 2026 and 2025, respectively, and \$1.4 million and \$2.8 million of inter-segment sales and costs during the six months ended June 30, 2026 and 2025, respectively, which are eliminated in consolidation. Further information related to the Company's products and services and geographical distribution of revenues is disclosed in Note N – Revenues.

All other corporate charges presented in the tables below mainly consists of corporate overhead costs maintained at the corporate level, including gains and losses related to financial instruments measured at fair value. These expenses include costs relating to treasury, accounting, consulting, advisory, legal, tax and audit, insurance, financial reporting services and various administrative expenses related to the corporate headquarters.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis is provided as a supplement to, and should be read in conjunction with, the condensed consolidated financial statements and accompanying notes included in this Quarterly Report on Form 10-Q. Certain information contained in this discussion and analysis includes forward-looking statements that involve risks and uncertainties. Our actual results may differ materially from those anticipated in these forward-looking statements as a result of many factors. For information identifying important factors that could cause actual results to differ materially from those anticipated in the forward-looking statements, please refer to Item 1A. "Risk Factors" and the "Cautionary Note Regarding Forward-Looking Statements" sections of this Quarterly Report on Form 10-Q. Unless the context otherwise requires, all references in this section to the "Company," "Redwire," "we," "us" or "our" refer to Redwire Corporation and its consolidated subsidiaries.

Business Overview

Redwire is an integrated space and defense company focused on advanced technologies including next-generation spacecraft, space infrastructure, autonomous systems and multi-domain operations leveraging digital engineering and artificial intelligence automation. Redwire's proven and reliable airborne and space-based capabilities include our space and defense technology and platform offerings of avionics, sensors, and payloads; power generation; structures and mechanisms; radio frequency ("RF") systems; airborne and spacecraft platforms and missions; and microgravity payloads. Redwire combines decades of flight heritage and proven experience with an agile and innovative culture.

Redwire's primary business model is providing proven, mission critical solutions based on core airborne and space infrastructure offerings through both short- and long-duration projects for U.S. and international government and commercial customers. Redwire operates in two business segments: Space and Defense Tech. We organize our business segments based on the nature of the products and services offered.

Redwire's Space segment focuses on delivering next-generation spacecraft, large space infrastructure, and microgravity capabilities to serve civil, national security, and commercial space customers globally. Our core space offerings are flight-proven and have supported hundreds of spacecraft, missions, and operations, including, but not limited to, the International Space Station, the European Space Agency's ("ESA") Project for On-Board Autonomy ("PROBA"), the National Aeronautics and Space Administration's ("NASA") Double Asteroid Redirection Test and the Orion space capsule, and the Space Force's GPS. We are also a provider of innovative technologies with the potential to help transform the economics of space and create new markets for its exploration and commercialization.

Redwire's Defense Tech segment focuses on delivering combat-proven autonomous systems, optical sensors, advanced optics, resilient energy solutions and radio frequency payloads that provide intelligence, surveillance, and reconnaissance capabilities for customers including the U.S. Department of War ("DoW", formerly known as the Department of Defense), U.S. Federal Civilian Agencies and allied governments across multiple domains. Our defense technology offerings include field-proven airborne products and services that have decades of innovation and more than 400,000 flight hours. Key operations include developing and manufacturing Uncrewed Aerial Systems ("UAS") for commercial, government, and military applications in areas such as surveillance, logistics, reconnaissance, border security, and emergency response. Redwire is committed to delivering innovative space and airborne platforms to help transform the future of multi-domain operations.

The following discussion should be read along with the financial statements included in this Form 10-Q, as well as "Management's Discussion and Analysis of Financial Condition and Results of Operations," "Liquidity and Capital Resources," and "Risk Factors" included in the Company's Annual Report on Form 10-K for the year ended December 31, 2025, as filed with the SEC on February 27, 2026 (the "Company's Annual Report"), which provides additional information on our business, the environment in which we operate and our operating results.

Recent Developments

During the second quarter of 2026:

- Revenues increased 90% for the three months ended June 30, 2026 compared to the same period in 2025.
- Gross margin increased to 28% for the three months ended June 30, 2026 from (31)% during the same period in 2025.
- Net loss decreased \$56.0 million to \$(41.0) million for the three months ended June 30, 2026 compared to the same period in 2025.
- Book-to-bill ratio decreased to 1.42 for the three months ended June 30, 2026 from 1.47 for the same period in 2025.
- Backlog increased to \$542.1 million as of June 30, 2026 from \$411.2 million as of December 31, 2025.

- Completed on-orbit operations for pharmaceutical drug development investigations in partnership with researchers at Aspera Biomedicines, Bristol Myers Squibb, Rowan University, and Purdue University, marking more than 50 PIL-BOXes flown inception-to-date.
- Awarded follow-on orders for Stalker Block 30 from both the Marine Corps Portfolio Acquisition Executive Robotic Autonomous Systems and the 1st Aviation Brigade, U.S. Army Aviation Center of Excellence.
- Awarded contracts to deliver Penguin uncrewed aerial systems across the globe, including a multi-year contract from an undisclosed NATO ally country and a Tranche 1 contract from Taiwan Color Optics, Inc. for the Taiwan Coast Guard.
- Delivered nearly 200 Octopus ISR payloads year-to-date, a more than 15% increase year-over-year, and announced two new Octopus products, the Octopus E140 MWIR and E180 HD MWIR.

Industry and Regulatory Updates

U.S. Budget Environment

On February 3, 2026, Congress passed, and the President signed into law, the *Consolidated Appropriations Act of 2026*, that includes full FY 2026 appropriations for most of the federal government, exclusive of the Department of Homeland Security, which remains under a short-term continuing resolution. The bill provided \$839.2 billion in total discretionary defense funding, including research and development funding. The bill includes \$13.4 billion in funding for missile defense and space programs to augment and integrate in support of the “Golden Dome for America” initiative.

In March 2026, NASA announced a strategic shift in its lunar exploration program, pausing further development of the Lunar Gateway space station to focus resources on establishing a sustained human presence at the Moon’s South Pole. Under the revised plan, approximately \$20 billion in projected funding over the next seven years is being redirected from orbital infrastructure toward surface-based systems and habitation capabilities. This realignment is expected to accelerate timelines associated with developing a permanent lunar surface base and related mission support activities. The full impact of this policy shift is still being evaluated across the industry.

The U.S. Government FY (“GFY”) 2027 budget process has commenced with both administration and congressional activity proceeding in the ordinary course. We are not yet able to assess any impact that the GFY 2027 budget will have on Redwire's business. We will continue to monitor developments as the appropriations process continues.

International Developments

In March 2025, the European Commission introduced the *Readiness 2030* package (previously dubbed “ReArm Europe”), to deploy nearly €800 billion over four years for collective defense, including drone systems, missile defense, cyber and autonomous platforms. The package includes a suspension of fiscal constraints allowing up to 1.5% of Gross Domestic Product (“GDP”) to be put toward additional defense spending and launched the €150 billion Safe Action for Europe (“SAFE”) loan facility. During 2026, implementation of the *Readiness 2030* initiative continues to advance, including adoption of implementing decisions for multiple member states under the SAFE financing mechanism and expected initial loan disbursements beginning in the second quarter of 2026.

The European Commission formally introduced the EU Space Act in June 2025 as a proposed regulation to harmonize legal frameworks across the EU for space activities. It establishes a single market for space service providers and applies to EU and non-EU operators whose activities impact the EU internal market. The regulatory structure will be focused on three areas: safety (including orbital debris mitigation and space situational awareness), resilience (including space-based cybersecurity), and sustainability (including in-orbit servicing). If enacted by the European Parliament and Council, the regulation is designed to apply from January 1, 2030, with a two-year transition period for existing missions not yet launched by that date. Discussions and commentary on the EU Space Act continues to progress, but no comprehensive language has yet been agreed by relevant stakeholders.

U.S. and international government spending levels and timely funding thereof may adversely affect our financial condition and operating performance over the short and long term. Please refer to Item 1A. “Risk Factors” included in this Quarterly Report on Form 10-Q, for additional information related to government funding risks.

Geopolitical Environment

We operate in a complex and evolving global space and defense environment and our business is affected by geopolitical issues. Russia’s invasion of Ukraine significantly elevated global geopolitical tensions and security concerns, and following the acquisition of Edge Autonomy, a portion of the combined company’s sales are to customers in Ukraine. Those sales have been declining and may continue to decline in the event that the war and hostilities in Ukraine end, decline or change, or as a result of changes in international support for military assistance to Ukraine. Additionally, U.S. involvement in the conflict with Iran may have an impact on U.S. and allied defense spending, but the current impact remains unclear.

Results of Operations

Substantially all of our contracts within the Space segment and some of our contracts within the Defense Tech segment are accounted for under the percentage-of-completion cost-to-cost method. As a result, revenues on contracts are recorded over time based on progress towards completion for a particular contract, including the estimate of the profit to be earned at completion. The following discussion of material changes in consolidated revenues should be read in tandem with the subsequent discussion of changes in consolidated cost of sales because changes in revenues are typically accompanied by a corresponding change in cost of sales due to the nature of the percentage-of-completion cost-to-cost method.

Net EAC Adjustments

We record changes in costs estimated at completion (net EAC adjustments) using the cumulative catch-up method of accounting. Net EAC adjustments can have a significant effect on reported revenues and gross profit and the table below presents the aggregate amounts for the following periods:

	Three Months Ended		Six Months Ended	
	June 30, 2026	June 30, 2025	June 30, 2026	June 30, 2025
(dollars in thousands)				
Gross favorable	\$ 7,740	\$ 3,161	\$ 16,096	\$ 4,704
Gross unfavorable	(7,736)	(28,362)	(17,194)	(33,003)
Total net EAC adjustments impact to gross profit	\$ 4	\$ (25,201)	\$ (1,098)	\$ (28,299)

The Company evaluates the contract value and cost estimates at completion for performance obligations no less frequently than quarterly, and more frequently when circumstances significantly change. Changes in contract estimates occur for a variety of reasons including, but not limited to, changes in contract scope, labor productivity, the nature and technical complexity of the work to be performed, availability and cost volatility of materials, subcontractor and vendor performance, volume assumptions, inflationary trends, and schedule and performance delays. We utilize information available to us at the time when revising our estimates and apply consistent judgment across the full portfolio of programs. The gross unfavorable EAC adjustments for the six months ended June 30, 2026 were primarily due to \$16.2 million unfavorable adjustments in the Space segment as a result of an increase in estimates made for the programmatic and technical assumptions based on the nature and technical complexity of the work to be performed to meet customer specifications. The gross favorable adjustments are primarily due to \$10.2 million of favorable adjustments in the Defense Tech segment, inclusive of the reversal of loss reserves in the amount of \$6.7 million. Refer to Note N – Revenues of the accompanying notes to the condensed consolidated financial statements for additional information.

Results of operations for the three months ended June 30, 2026 compared to the three months ended June 30, 2025:

	Three Months Ended				\$ Change from prior year period	% Change from prior year period
	June 30, 2026	% of revenues	June 30, 2025	% of revenues

Net income (loss)	\$ (40,971)	(35)%	\$ (96,979)	(157)%	\$ 56,008	(58)%

For purposes of the following discussion and analysis, the financial impact related to the June 2025 acquisition of Redwire Defense Tech Intermediate Holdings, LLC (f/k/a Edge Autonomy Intermediate Holdings, LLC) and its subsidiaries, is referred to as the “Edge Autonomy Acquisition.”

Revenues

Revenues increased by \$55.3 million, or 90%, for the three months ended June 30, 2026, as compared to the three months ended June 30, 2025. The increase in revenues is primarily driven by \$49.1 million of revenues related to the Edge Autonomy Acquisition, which was completed on June 13, 2025 and therefore has minimal comparable amounts year-over-year. The increase is also due to lower net unfavorable EAC adjustments of \$3.2 million for the three months ended June 30, 2026 as compared to \$17.7 million of net unfavorable EAC adjustments for the same period in 2025.

Cost of Sales

Cost of sales increased \$3.7 million, or 5%, for the three months ended June 30, 2026, as compared to the three months ended June 30, 2025. The year-over-year increase in cost of sales was primarily driven by \$22.7 million of costs related to the Edge Autonomy Acquisition, which was completed on June 13, 2025 and therefore has minimal comparable amounts year-over-year. This increase was partially offset due to the reversal of \$3.2 million in contract loss reserves compared to the establishment of \$7.5 million in contract reserves during the same period in 2025, resulting in a \$10.7 million decrease in cost of sales. The increase was further offset by a reduction in cost of sales due to a shift in the production cycle associated with certain larger contracts within the Space segment.

Gross Profit and Margin

Gross profit increased \$51.6 million for the three months ended June 30, 2026, as compared to the three months ended June 30, 2025. Further, as a percentage of revenues, gross margin increased to 28% for the three months ended June 30, 2026 from (31)% during the same period in 2025. The increase in gross profit and margin was primarily driven by a decrease in net unfavorable EAC adjustments of \$25.2 million year-over-year. The increase is also due to \$32.3 million of contributed gross profit from the Edge Autonomy acquisition which impacted changes in the contract mix, including increases of contracts with higher margins and the completion or near completion of larger contracts with lower margins. Please refer to Note N – Revenues of the accompanying notes to the condensed consolidated financial statements for additional information related to the Company's net EAC adjustments.

Selling, General and Administrative ("SG&A") Expenses

SG&A expenses decreased \$12.4 million for the three months ended June 30, 2026, as compared with the same period in 2025. This contributed to a year-over-year decrease of SG&A as a percentage of revenue to 36% for the three months ended June 30, 2026 from 88% for the same period in 2025. The year-over-year decrease was primarily due to the non-recurring \$29.6 million expense in 2025 related to the Edge Incentive Units. The decrease was partially offset by an increase of \$13.4 million in SG&A expenses, other than equity-based compensation, related to the Edge Autonomy Acquisition, which was completed at the end of the second quarter of 2025 and therefore has minimal comparable amounts year-over-year.

Transaction Expense

Transaction expenses decreased \$16.6 million for the three months ended June 30, 2026, as compared with the same period in 2025. The decrease is primarily due to acquisition costs incurred during the three months ended June 30, 2025, consisting of due diligence and expenses related to the Edge Autonomy Acquisition of which there is minimal comparable expense during the three months ended June 30, 2026.

Research and Development

Research and development expenses increased \$10.8 million during the three months ended June 30, 2026, as compared with the same period in 2025. The increase is primarily related to \$6.1 million of costs related the Edge Autonomy Acquisition, which was completed on June 13, 2025 and therefore has minimal comparable amounts year-over-year. The remaining increase is primarily driven by strategic investments in the development of high potential, emerging opportunities within the Space segment.

Interest Expense, net

Interest expense, net decreased \$23.0 million for the three months ended June 30, 2026, as compared with the same period in 2025. The decrease was primarily due to the non-recurring interest expense of \$20.0 million recognized in 2025 related to the repayment of the Seller Note. The change was also due to a decrease in the effective interest rate year-over-year primarily due to a reduced interest rate on the JPM A&R Credit Agreement, as amended, and the Company no longer holding the term and revolver loans under the Adams Street Credit Agreement. Refer to Note H – Debt of the accompanying notes to the condensed consolidated financial statements for additional information related to the Company's debt obligations.

Loss on Extinguishment of Debt

The Company recognized \$1.2 million as a loss on extinguishment of debt for the three months ended June 30, 2026, related to the write-off of unamortized discount and deferred financing costs associated with the amendment of the JPM A&R Credit Agreement. Please refer to Note H – Debt of the accompanying notes to the condensed consolidated financial statements for additional information

related to the Company's debt obligations.

Other (Income) Expense, net

Other (income) expense, net remained materially consistent for the three months ended June 30, 2026, as compared to the same period in 2025.

Income Tax Expense (Benefit)

The table below provides information regarding our income tax expense (benefit) for the following periods:

	Three Months Ended	
	June 30, 2026	June 30, 2025
(in thousands, except percentages)		
Income tax expense (benefit)	\$ 1,862	\$ (32,604)
Effective tax rate expense (benefit)	4.8 %	(25.2)%

The Company recorded tax expense of \$1.9 million for the three months ended June 30, 2026, as compared to a tax benefit of \$32.6 million for the three months ended June 30, 2025. This change in income tax expense is primarily related to the increase in the valuation allowance for the three months ended June 30, 2026 compared to a decrease in the Company's valuation allowance for the same period in 2025 and the mix in earnings between U.S. and foreign jurisdictions year-over-year. Refer to Note K – Income Taxes of the accompanying notes to the condensed consolidated financial statements for further discussion.

Results of operations for the six months ended June 30, 2026 compared to the six months ended June 30, 2025:

	Six Months Ended				\$ Change from prior year period	% Change from prior year period
	June 30, 2026	% of revenues	June 30, 2025	% of revenues		
(in thousands, except percentages)						
Revenues	\$ 214,046	100 %	\$ 123,155	100 %	\$ 90,891	74 %

For purposes of the following discussion and analysis, the financial impact related to the June 2025 acquisition of Redwire Defense Tech Intermediate Holdings, LLC (f/k/a Edge Autonomy Intermediate Holdings, LLC) and its subsidiaries, is referred to as the "Edge Autonomy Acquisition."

Revenues

Revenues increased by \$90.9 million, or 74%, for the six months ended June 30, 2026, as compared to the six months ended June 30, 2025. The year-over-year increase in revenues was primarily related to \$85.6 million of revenue related to the Edge Autonomy Acquisition, which was completed at the end of the second quarter of 2025 and therefore has minimal comparable amounts year-over-year. This increase was also due to a decrease in net unfavorable EAC adjustments year-over-year of \$12.9 million. Please refer to Note N – Revenues of the accompanying notes to the condensed consolidated financial statements for additional information related to the Company's net EAC adjustments. The increase was partially offset due to timing in the stage of production cycles year-over-year for certain larger contracts for large space structure offerings in the Space segment. The foregoing resulted in decreased volume of production and therefore decreased revenue compared to the same period in 2025.

Cost of Sales

Cost of sales increased \$22.5 million, or 17%, for the six months ended June 30, 2026, as compared to the six months ended June 30, 2025. The year-over-year increase in cost of sales was primarily driven by \$42.0 million of costs related to the Edge Autonomy acquisition, which was completed at the end of the second quarter of 2025 and therefore has minimal comparable amounts year-over-year. This increase was partially offset due to the reversal of \$6.9 million in contract loss reserves compared to the establishment of \$7.5 million in contract reserves during the same period in 2025, resulting in a \$14.3 million decrease in cost of sales year-over-year. The increase was further offset by reduced costs due to a shift in the production cycle associated with certain larger contracts in power generation offerings described above.

Gross Profit and Margin

Gross profit increased \$68.4 million for the six months ended June 30, 2026, as compared to the six months ended June 30, 2025. As a percentage of revenues, gross margin was 27% and (8)% for the six months ended June 30, 2026 and 2025, respectively. The year-over-year increase in gross margin as a percentage of revenues was partially driven by a decrease in net unfavorable EAC adjustments of \$27.2 million year-over-year. The increase is also due to changes in the contract mix, including the completion or near completion of larger contracts with lower margins and increases of contracts with higher margins, impacting the overall contract portfolio gross margin, particularly in the Defense Tech segment. Please refer to Note N – Revenues of the accompanying notes to the condensed consolidated financial statements for additional information related to the Company's net EAC adjustments.

Selling, General and Administrative ("SG&A") Expenses

SG&A expenses increased \$51.8 million for the six months ended June 30, 2026, as compared with the same period in 2025 but SG&A expenses as a percentage of revenues decreased to 58% for the six months ended June 30, 2026 from 59% during the same period in 2025. The year-over-year increase in SG&A expenses was primarily driven by an increase in equity-based compensation of \$14.4 million, primarily related to the accelerated vesting of the Edge Incentive Units during the six months ended June 30, 2026. The increase is also due to \$29.2 million in SG&A expenses, other than equity-based compensation, related to Edge Autonomy for which there is minimal comparable cost in 2025. The increase is also partially due to an increase in depreciation and amortization offset by decreases in professional fees and severance costs.

Transaction Expenses

Transaction expenses decreased \$20.4 million primarily due to costs incurred related to the Edge Autonomy acquisition for the six months ended June 30, 2025, as compared with the same period in 2026, for which there are minimal comparable costs. Please refer to Note C – Business Combinations of the accompanying notes to the condensed consolidated financial statements for additional information related to acquisitions.

Research and Development

Research and development expenses increased \$22.6 million for the six months ended June 30, 2026 as compared with the same period in 2025 primarily due to \$14.0 million of costs related to the Edge Autonomy acquisition, which was completed at the end of the second quarter of 2025 and therefore has minimal comparable amounts year-over-year. The remaining increase is primarily driven by strategic investments in the development of high potential, emerging opportunities within the Space segment.

Interest Expense, net

Interest expense, net decreased \$24.1 million for the six months ended June 30, 2026, as compared to the six months ended June 30, 2025. This decrease was primarily related to \$20.0 million of interest expense recognized during the six months ended June 30, 2025 related to the non-recurring repayment of the Seller Note. The decrease is also partially due to lower effective interest rates on the JPM A&R Credit Agreement, as amended, as well as decreased borrowings as the Company no longer has outstanding loans on the Adams Street Credit Agreement. Please refer to Note H – Debt of the accompanying notes to the condensed consolidated financial statements for additional information related to the Company's debt obligations.

Loss on Extinguishment of Debt

The Company recognized \$3.7 million as a loss on extinguishment of debt for the six months ended June 30, 2026, related to the write-off of unamortized discount and deferred financing costs associated with the termination of the Adams Street Credit Agreement as well as the refinancing and voluntary prepayment of \$40.0 million on the term loans under the JPM A&R Credit Agreement. Please refer to Note H – Debt of the accompanying notes to the condensed consolidated financial statements for additional information related to the Company's debt obligations.

Other (Income) Expense, net

Other (income) expense, net increased by \$17.0 million for the six months ended June 30, 2026, from net income to net expense as

compared to the six months ended June 30, 2025. This year-over-year change was primarily due to an increase in the loss recognized as a result of an increase in the fair value of the Company's private warrant liability of \$12.1 million and change to a net loss on foreign currency transactions during the six months ended June 30, 2026 compared to a net gain during the six months ended June 30, 2025. Please refer to Note D – Fair Value of Financial Instruments of the accompanying notes to the condensed consolidated financial statements for additional information related to the Company's private warrants.

Income Tax Expense (Benefit)

The table below provides information regarding our income tax expense (benefit) for the following periods:

	Six Months Ended	
	June 30, 2026	June 30, 2025
(in thousands, except percentages)		
Income tax expense (benefit)	\$ 2,503	\$ (32,786)
Effective tax rate expense (benefit)	2.2 %	(24.7)%

The effective tax rate changed to 2.2% for the six months ended June 30, 2026 as compared to (24.7)% for the six months ended June 30, 2025, primarily related to the increase in the valuation allowance for the six months ended June 30, 2026 compared to a decrease for the same period in 2025 and the mix in earnings between U.S. and foreign jurisdictions year-over-year. Please refer to Note K – Income Taxes of the accompanying notes to the condensed consolidated financial statements for additional information.

Business Segment Results of Operations

The Company operates in two business segments: Space and Defense Tech. We organize our business segments based on the nature of products and services offered and based on the financial information that is provided and regularly reviewed by the CODM in deciding how to allocate resources and in assessing performance.

Results of our business segments exclude inter-segment sales, cost of sales and profit as these activities are eliminated in consolidation and thus are not included in management's evaluation of performance of each segment. Additionally, business segment operating results exclude a portion of corporate costs not considered allowable or allocable to contracts, and other items not considered part of management's evaluation of segment operating performance.

Corporate charges presented in the tables below mainly consist of corporate overhead costs maintained at the corporate level. These expenses include costs relating to treasury, accounting, consulting, advisory, legal, tax and audit, insurance, financial reporting services and various administrative expenses related to the corporate headquarters.

Results of operations for the three months ended June 30, 2026 compared to the three months ended June 30, 2025:

Revenues, cost of sales, operating income (loss) and Segment Adjusted EBITDA for each of our business segments were as follows:

(in thousands)	Three Months Ended	
	June 30, 2026	June 30, 2025
Revenues		
Space	\$ 55,192	\$ 56,682
Defense Tech	61,882	5,078
Total revenues	\$ 117,074	\$ 61,760
Cost of sales		
Space	\$ 51,559	\$ 59,033
Defense Tech	32,971	21,791
Total cost of sales	\$ 84,530	\$ 80,824
Segment Adjusted EBITDA		
Space	\$ (4,203)	\$ 1,040
Defense Tech	14,083	(15,041)
Total Segment Adjusted EBITDA	\$ 9,880	\$ (14,001)
Operating income (loss)		
Space	\$ (5,674)	\$ (6,950)
Defense Tech	3,868	(49,728)
Total business segment operating income (loss)	\$ (1,806)	\$ (56,678)
Unallocated items		
Corporate charges	\$ 20,273	\$ 18,627
Transaction expenses	11	16,586
Total consolidated operating income (loss)	\$ (22,090)	\$ (91,891)

Space

Redwire's Space segment focuses on delivering next-generation spacecraft; large space infrastructure; critical avionics, as well as microgravity capabilities to serve civil, national security, and commercial space customers. Space's operating results included the following:

(in thousands, except percentages)	June 30, 2026	June 30, 2025
Revenues	\$ 55,192	\$ 56,682
Operating income (loss)	\$ (5,674)	\$ (6,950)
Operating margin	(10)%	(12)%
Segment Adjusted EBITDA	\$ (4,203)	\$ 1,040

Space segment revenues decreased by \$1.5 million, or (3)%, for the three months ended June 30, 2026, as compared to the three months ended June 30, 2025. The year-over-year decrease in revenues is primarily related to timing in the stage of production cycles year-over-year for certain contracts in the large space infrastructure offerings. The foregoing resulted in decreased volume of production and therefore decreased revenue compared to the same period in 2025. The decrease was partially offset by a reduction in net unfavorable EAC adjustments of \$5.2 million year-over-year.

Operating income (loss) decreased by \$1.3 million for the three months ended June 30, 2026, as compared to the three months ended June 30, 2025. Operating margin decreased to (10)% from (12)% year-over-year. The decrease in operating income (loss) and decrease in margin is partially due to an increase in gross margin as a result of a reduction in the net unfavorable EAC adjustments recognized year-over-year. The increase was partially offset due to increased costs for research and development of \$4.8 million year-over-year as a result of the Company investing in high potential opportunities.

Segment Adjusted EBITDA decreased by \$5.2 million for the three months ended June 30, 2026, as compared to the three months ended June 30, 2025. The decrease is primarily due to increased costs for research and development as described above.

Defense Tech

Redwire's Defense Tech segment focuses on delivering combat-proven autonomous systems, optical sensors and radio frequency

payloads that provide intelligence, surveillance, and reconnaissance capabilities for U.S. and allied nations across multiple domains. Defense Tech's operating results included the following:

(in thousands, except percentages)

	June 30, 2026		June 30, 2025	
Revenue	\$	61,882	\$	5,078
Operating income (loss)	\$	3,868	\$	(49,728)
Operating margin		6 %		(979)%
Segment Adjusted EBITDA	\$	14,083	\$	(15,041)

Defense Tech segment revenues increased by \$56.8 million for the three months ended June 30, 2026, as compared to the three months ended June 30, 2025. The year-over-year increase in revenues was primarily due to \$49.1 million of revenue related to the Edge Autonomy Acquisition, which was completed on June 13, 2025 and therefore has minimal comparable amounts year-over-year. The increase was also due to net unfavorable EAC adjustment of \$8.7 million during the three months ended June 30, 2025 compared to net favorable adjustments during the three months ended June 30, 2026, resulting in an increase of \$9.3 million in revenue year-over-year.

Operating income (loss) increased by \$53.6 million for the three months ended June 30, 2026, from operating loss to operating income as compared to the three months ended June 30, 2025. Operating margin also increased to 6% from (979)% year-over-year. The increase in operating income (loss) and operating margin is primarily due to an increase in gross margin to 47% for the three months ended June 30, 2026 from (329)% for the same period in 2025. The increase in gross margin is primarily related to \$26.5 million of contributed gross profit related to the Edge Autonomy Acquisition, which was completed on June 13, 2025 and therefore has a minimal comparable amount year-over-year as well as the impact from net favorable EAC adjustments of \$3.6 million for the three months ended June 30, 2026 compared to net unfavorable EAC adjustments of \$15.9 million for the same period in 2025. The increase is also due to a decrease in equity-based compensation of \$29.6 million related to the Edge Incentive Units recorded during the three months ended June 30, 2025 for which there is no comparable cost during the three months ended June 30, 2026, partially offset by a \$6.4 million increase in depreciation and amortization as a result of the Edge Autonomy Acquisition, which was completed at the end of the second quarter of 2025 and therefore has minimal comparable amounts year-over-year.

Segment Adjusted EBITDA increased by \$29.1 million for the three months ended June 30, 2026, as compared to the three months ended June 30, 2025. The increase is primarily due to the improved gross margin year-over-year as described above partially offset by increased costs for research and development of \$6.1 million year-over-year as a result of the Company investing in high potential opportunities.

Results of operations for the six months ended June 30, 2026 compared to the six months ended June 30, 2025:

Revenues, cost of sales, operating income (loss) and segment adjusted EBITDA for each of our business segments were as follows:

(in thousands)	Six Months Ended	
	June 30, 2026	June 30, 2025
Revenues		
Space	\$ 107,859	\$ 108,815
Defense Tech	106,187	14,340
Total revenues	\$ 214,046	\$ 123,155
Cost of sales		
Space	\$ 99,324	\$ 104,187
Defense Tech	56,370	28,991
Total cost of sales	\$ 155,694	\$ 133,178
Segment Adjusted EBITDA		
Space	\$ (5,732)	\$ 8,484
Defense Tech	19,481	(12,614)
Total Segment Adjusted EBITDA	\$ 13,749	\$ (4,130)
Operating income (loss)		
Space	\$ (9,562)	\$ (3,799)
Defense Tech	(42,999)	(48,076)
Total business segment operating income (loss)	\$ (52,561)	\$ (51,875)
Unallocated items		
Corporate charges	\$ 39,179	\$ 33,948
Transaction expenses	51	20,385
Total consolidated operating income (loss)	\$ (91,791)	\$ (106,208)

Space

Redwire's Space segment focuses on delivering next-generation spacecraft; large space infrastructure; critical avionics, as well as microgravity capabilities to serve civil, national security, and commercial space customers. Space's operating results included the following:

(in thousands, except percentages)	June 30, 2026	June 30, 2025
Revenues	\$ 107,859	\$ 108,815
Operating income (loss)	\$ (9,562)	\$ (3,799)
Operating margin	(9)%	(3)%
Segment Adjusted EBITDA	\$ (5,732)	\$ 8,484

Space segment revenues decreased by \$1.0 million, or (1)%, for the six months ended June 30, 2026, as compared to the six months ended June 30, 2025. The year-over-year decrease in revenues is primarily related to timing in the stage of production cycles year-over-year for certain contracts in the large space infrastructure offerings. The foregoing resulted in decreased volume of production and therefore decreased revenue compared to the same period in 2025.

Operating income (loss) increased by \$5.8 million for the six months ended June 30, 2026, as compared to the six months ended June 30, 2025. Operating margin also decreased to (9)% from (3)% year-over-year. The increase in operating loss and decrease in operating margin is primarily due to increased costs for research and development of \$8.6 million year-over-year as a result of the Company investing in high potential opportunities. The increase in operating loss is partially offset by an increase in gross margin as a result of reduced net unfavorable EAC adjustments recognized during the six months ended June 30, 2026, compared with the same period in 2025.

Segment Adjusted EBITDA decreased by \$14.2 million for the six months ended June 30, 2026, as compared to the six months ended June 30, 2025. The decrease is primarily due to the increased costs for research and development as described above and negative impacts on foreign currency exchange rates year-over-year related to the Space segment's international operations.

Defense Tech

Redwire's Defense Tech segment focuses on delivering combat-proven autonomous systems, optical sensors and radio frequency payloads that provide intelligence, surveillance, and reconnaissance capabilities for U.S. and allied nations across multiple domains. Defense Tech's operating results included the following:

(in thousands, except percentages)

	June 30, 2026	June 30, 2025
Revenue	\$ 106,187	\$ 14,340
Operating income (loss)	\$ (42,999)	\$ (48,076)
Operating margin	(40)%	(335)%
Segment Adjusted EBITDA	\$ 19,101	\$ (12,614)

Defense Tech segment revenues increased by \$91.8 million for the six months ended June 30, 2026, as compared to the six months ended June 30, 2025. The year-over-year increase in revenues was primarily due to \$85.6 million of revenue related to the Edge Autonomy Acquisition, which was completed on June 13, 2025 and therefore has minimal comparable amounts year-over-year. The increase was also due to net favorable EAC adjustments for the six months ended June 30, 2026 compared to net unfavorable adjustments in the same period of 2025.

Operating income (loss) decreased by \$5.1 million for the six months ended June 30, 2026, as compared to the six months ended June 30, 2025. Operating margin also decreased to (40)% from (335)% year-over-year. The decrease in operating income (loss) and operating margin is primarily due to an increase in gross in margin to 47% from (102)% year-over-year. The increase in gross margin is primarily related to \$43.6 million of contributed gross profit related to the Edge Autonomy Acquisition, which was completed on June 13, 2025 and therefore has a minimal comparable amount year-over-year as well as the impact from net favorable EAC adjustments of \$9.3 million for the three months ended June 30, 2026 compared to net unfavorable EAC adjustments of \$16.4 million for the same period in 2025. These increases were partially offset by an increase in equity-based compensation of \$12.4 million related to the Edge Incentive Units year-over-year and a \$14.6 million increase in depreciation and amortization primarily as a result of the Edge Autonomy Acquisition year-over-year.

Segment Adjusted EBITDA increased by \$32.1 million for the six months ended June 30, 2026, as compared to the six months ended June 30, 2025. The increase is primarily due to the increased gross margins as described above partially offset by an increase in research and development costs of \$14.0 million as a result of the Company investing in high potential opportunities.

Supplemental Non-GAAP Information

We use Adjusted EBITDA and Adjusted EPS to evaluate our operating performance, generate future operating plans, and make strategic decisions, including those relating to operating expenses and the allocation of internal resources which are not calculated in accordance with U.S. Generally Accepted Accounting Principles ("U.S. GAAP") and are considered to be Non-GAAP financial performance measures. These Non-GAAP financial performance measures are used to supplement the financial information presented on a U.S. GAAP basis and should not be considered in isolation or as a substitute for the relevant U.S. GAAP measures and should be read in conjunction with information presented on a U.S. GAAP basis. Because not all companies use identical calculations, our presentation of Non-GAAP measures may not be comparable to other similarly titled measures of other companies.

Adjusted EBITDA

Adjusted EBITDA is defined as net income (loss) adjusted for interest expense, net, income tax expense (benefit), depreciation and amortization, impairment expense, transaction expenses, acquisition integration costs, acquisition earnout costs, purchase accounting fair value adjustment related to deferred revenue and inventory, severance costs, capital market and advisory fees, disposal of long-lived assets, litigation-related expenses, equity-based compensation, committed equity facility transaction costs, debt financing costs and extinguishment losses, gains on sale of joint ventures, net of costs incurred, and warrant liability change in fair value adjustment.

The table below presents a reconciliation of Adjusted EBITDA to net income (loss), computed in accordance with U.S. GAAP for the following periods:

(in thousands)	Three Months Ended		Six Months Ended	
	June 30, 2026	June 30, 2025	June 30, 2026	June 30, 2025
Net income (loss)	\$ (40,971)	\$ (96,979)	\$ (117,473)	\$ (99,927)
Interest expense, net	796	23,755	3,263	27,349
Income tax expense (benefit)	1,862	(32,604)	2,503	(32,786)

Warrant liability change in fair value adjustment (ix)	14,469	16,326	14,787	2,692
Adjusted EBITDA	<u>\$ (3,232)</u>	<u>\$ (27,394)</u>	<u>\$ (12,430)</u>	<u>\$ (29,662)</u>

- i. Redwire incurred acquisition costs including due diligence, integration costs and additional expenses related to pre-acquisition activity.
- ii. Redwire adjusted inventory related to the application of purchase accounting for the Edge Autonomy acquisition and recognized expense for the amount of the fair value adjustment included in cost of sales for the inventory sold after the acquisition date.
- iii. Redwire incurred severance costs related to separation agreements entered into with former employees.
- iv. Redwire incurred capital market and advisory fees related to advisors assisting with the implementation of internal controls over financial reporting, including material weakness remediation efforts, and the internalization of corporate services, including, but not limited to, implementing enhanced enterprise resource planning systems across U.S. and foreign operations.
- v. Redwire incurred a loss on the disposal of long-lived assets.
- vi. Redwire incurred expenses related to settlements of legal matters.
- vii. Redwire incurred expenses related to equity-based compensation under Redwire's equity-based compensation plan and Edge Incentive Units.
- viii. Redwire incurred expenses related to debt financing agreements, including amendment related fees paid to third parties that are expensed in accordance with U.S. GAAP, and losses on debt extinguishments. Refer to Note H – Debt of the accompanying notes to the condensed consolidated financial statements for additional information.
- ix. Redwire adjusted the private warrant liability to reflect changes in fair value recognized as a gain or loss during the respective periods.

Adjusted EPS

Adjusted EPS is defined as U.S. GAAP diluted earnings per share (the most directly comparable U.S. GAAP measure) before transaction expenses, acquisition integration costs, purchase accounting fair value adjustment related to deferred revenue and inventory, litigation expenses, equity-based compensation, debt financing costs and extinguishment losses and changes in fair value of private warrants, adjusted to assume the Company's Convertible Preferred Stock does not exist. Adjusted EPS is a useful measure because it eliminates the impact of infrequent or non-recurring items that do not relate to operational performance and provides additional information to investors about certain material non-cash items that we do not expect to continue at the same level in the future.

The table below presents a reconciliation of Adjusted EPS to diluted EPS, computed in accordance with U.S. GAAP for the following periods:

	Three Months Ended		Six Months Ended	
	June 30, 2026	June 30, 2025	June 30, 2026	June 30, 2025
Diluted EPS	\$ (0.19)	\$ (1.41)	\$ (0.58)	\$ (1.66)
Dividends on convertible preferred stock	—	0.33	0.01	0.41
Transaction expenses (i)	—	0.19	—	0.25
Acquisition integration costs (i)	—	0.01	—	0.01
Purchase accounting fair value adjustment (ii)	—	0.03	—	0.03
Litigation-related expenses (iii)	—	—	—	—
Equity-based compensation (iv)	0.02	0.36	0.24	0.44
Debt financing costs and extinguishment losses (v)	0.01	—	0.02	—
Warrant liability change in fair value adjustment (vi)	0.07	0.18	0.07	0.03
Adjusted EPS	<u>\$ (0.09)</u>	<u>\$ (0.31)</u>	<u>\$ (0.24)</u>	<u>\$ (0.49)</u>

- i. Redwire incurred acquisition costs including due diligence, integration costs and additional expenses related to pre-acquisition activity.
- ii. Redwire adjusted inventory related to the application of purchase accounting for the Edge Autonomy acquisition and recognized expense for the amount of the fair value adjustment included in cost of sales for the inventory sold after the acquisition date.
- iii. Redwire incurred expenses related to settlements of legal matters.
- iv. Redwire incurred expenses related to equity-based compensation under Redwire's equity-based compensation plan and Edge Incentive Units.
- v. Redwire incurred expenses related to debt financing agreements, including amendment related fees paid to third parties that are expensed in accordance with U.S. GAAP, and losses on debt extinguishments. Refer to Note H – Debt of the accompanying notes to the condensed consolidated financial statements for additional information.
- vi. Redwire adjusted the private warrant liability to reflect changes in fair value recognized as a gain or loss during the respective periods.

Key Performance Indicators

The following Key Performance Indicators (“KPIs”) are used by Management to assess the financial performance of the Company, monitor relevant trends and support financial, operational and strategic decision-making. Management frequently monitors and evaluates KPIs against internal targets, core business objectives as well as industry peers and may, on occasion, change the mix or calculation of KPIs to better align with the business, its operating environment, standard industry metrics, or other considerations. If the Company changes the method by which it calculates or presents a KPI, prior period disclosures would be recast to conform to current presentation.

Book-to-Bill

Our book-to-bill ratio was as follows for the periods presented:

(in thousands, except ratio)	Three Months Ended		Last Twelve Months Ended	
	June 30, 2026	June 30, 2025	June 30, 2026	June 30, 2025
Contracts awarded				
Space	\$ 20,648	\$ 9,537	\$ 309,733	\$ 138,789
Defense Tech	145,139	81,026	337,255	88,269
Total contracts awarded	\$ 165,787	\$ 90,563	\$ 646,988	\$ 227,058
Revenues				
Space	\$ 55,192	\$ 56,682	\$ 208,871	\$ 220,304
Defense Tech	61,882	5,078	217,401	41,049
Total revenues	\$ 117,074	\$ 61,760	\$ 426,272	\$ 261,353
Book-to-bill ratio				
Space	0.37	0.17	1.48	0.63
Defense Tech	2.35	15.96	1.55	2.15
Total book-to-bill ratio	1.42	1.47	1.52	0.87

Book-to-bill is the ratio of total contracts awarded to revenues recorded in the same period. The contracts awarded balance includes firm contract orders, including time-and-material contracts, awarded during the period and does not include unexercised contract options or potential orders under indefinite delivery/indefinite quantity contracts. Although the contracts awarded balance reflects firm contract orders, terminations, amendments, or contract cancellations may occur which could result in a reduction to the contracts awarded balance.

We view book-to-bill as an indicator of future revenue growth potential. To drive future revenue growth, our goal is for the level of contracts awarded in a given period to exceed the revenue recorded, thus yielding a book-to-bill ratio greater than 1.0.

Our book-to-bill ratio was 1.42 for the three months ended June 30, 2026, as compared to 1.47 for the three months ended June 30, 2025. For the three months ended June 30, 2026 none of the contracts awarded balance relates to acquired contract value. For the three months ended June 30, 2025, the contracts awarded includes \$73.7 million of acquired contract value from the Edge Autonomy acquisition.

Our book-to-bill ratio was 1.52 for the Last Twelve Months (“LTM”) ended June 30, 2026, as compared to 0.87 for the LTM ended June 30, 2025. For the LTM ended June 30, 2026 none of the contracts awarded balance relates to acquired contract value. For the LTM ended June 30, 2025, contracts awarded includes \$73.7 million of acquired contract value from the Edge Autonomy acquisition, which was completed in the second quarter of 2025 and included in the Defense Tech segment, and \$21.9 million of acquired contract value from the Hera Systems acquisition, which was completed in the third quarter of 2024 and included in the Space segment.

Backlog

The following table presents our contracted backlog as of June 30, 2026 and December 31, 2025, and related activity for the six months ended June 30, 2026 as compared to the year ended December 31, 2025:

(in thousands)	June 30, 2026	December 31, 2025
Organic backlog, beginning balance	\$ 411,246	\$ 296,652
Organic additions during the period	352,316	441,478
Organic revenue recognized during the period	(214,046)	(335,381)
Foreign currency translation	(7,389)	8,497
Organic backlog, ending balance	542,127	411,246
Acquisition-related contract value, beginning balance	—	—
Acquisition-related backlog, ending balance	—	—
Contracted backlog, ending balance	\$ 542,127	\$ 411,246
Contracted backlog by segment:		
Space	\$ 321,950	\$ 299,804
Defense Tech	220,177	111,442

We view growth in backlog as a key measure of our business growth. Contracted backlog represents the estimated dollar value of firm funded executed contracts for which work has not been performed (also known as the remaining performance obligations on a contract). Our contracted backlog includes \$186.2 million and \$81.0 million in remaining contract value from contracts which recognize revenue at a point in time as of June 30, 2026 and December 31, 2025, respectively.

Organic backlog change excludes backlog activity from acquisitions for the first four full quarters since the entities' acquisition date. Contracted backlog activity for the first four full quarters since the entities' acquisition date is included in acquisition-related contracted backlog change. After the completion of four fiscal quarters, acquired entities are treated as organic for current and comparable historical periods.

Organic contract value includes the remaining contract value as of January 1 not yet recognized as revenue and additional orders awarded during the period for those entities treated as organic. Acquisition-related contract value includes remaining contract value as of the acquisition date not yet recognized as revenue and additional orders awarded during the period for entities not treated as organic. Organic revenue includes revenue earned during the period presented for those entities treated as organic, while acquisition-related revenue includes the same for all other entities, excluding any pre-acquisition revenue earned during the period. There is no acquisition-related backlog activity presented in the table above as all acquired entities have completed four fiscal quarters post-acquisition.

Although contracted backlog reflects business associated with contracts that are considered to be firm, terminations, amendments or contract cancellations may occur, which could result in a reduction in our total backlog. In addition, some of our multi-year contracts are subject to annual funding. Management expects all amounts reflected in contracted backlog to ultimately be fully funded. Contracted backlog from international operations was \$229.0 million and \$193.1 million as of June 30, 2026 and December 31, 2025, respectively. These amounts are subject to foreign exchange rate translations from their respective local currencies to U.S. dollars that could cause the remaining backlog balance to fluctuate with the foreign exchange rate at the time of measurement.

Liquidity and Capital Resources

Our operations are primarily funded with cash flows provided by operating activities, proceeds from equity offerings, including the ATM facilities, and access to existing credit facilities. As of June 30, 2026, we had \$557.0 million in cash and cash equivalents and \$50.0 million in available borrowings from our existing credit facilities.

Our primary requirements for liquidity and capital are for the Company's material cash requirements, including working capital needs, satisfaction of our indebtedness and contractual commitments, investment in expanding our breadth and footprint through acquisitions as well as investment in facilities, equipment, technologies, and research and development for our growth initiatives and general corporate needs.

Our ability to fund our cash needs is dependent upon the successful execution of our business strategy and future operating results. Our future operating results are subject to, among others, general economic conditions, including as a result of heightened inflation, rising interest rates and supply chain pressures, competitive dynamics in our target markets as well as legislative and regulatory factors that may be outside of our control. As part of our business and debt management strategy, we continuously evaluate opportunities to further strengthen our financial and liquidity position, including issuing additional equity or debt securities, refinancing or otherwise restructuring our existing credit facilities, or entering into new financing arrangements. There can be no assurance that any of these actions will be sufficient to allow us to adequately service our debt obligations, meet our debt covenants, or that such actions will not result in an adverse impact on our business. In the event that we require additional financing, we may not be able to secure such financing on terms acceptable to us or at all. For further information, please refer to the risk factors contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2025.

We believe our existing sources of liquidity will be sufficient to meet our working capital needs and debt service obligations and to comply with our debt covenants for at least the next twelve months from the date on which our condensed consolidated financial statements were issued.

Indebtedness

Please refer to Note H – Debt of the accompanying notes to the condensed consolidated financial statements for additional information related to the Company's debt obligations.

Contractual Obligations

During the six months ended June 30, 2026, there were no material changes to the Company's contractual obligations as presented in "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in the Company's Annual Report that were outside the ordinary course of our business, except the following.

As of June 30, 2026, the Company had two facility leases that had not yet commenced but require significant future lease obligations in the aggregate amount of \$16.9 million. The contracts were determined to be operating leases, whereby the Company is not required to make rent payments prior to the lease commencement date while construction is completed on the underlying assets. Due to the nature of the work and the amount of the Company's contribution to the construction period costs for the leases, the Company was determined not to be the owner of the assets under construction as the landlords have substantially all of the construction period risks.

Off-Balance Sheet Arrangements

From time to time, we are a party to certain off-balance sheet arrangements, such as standby letters of credit. Liabilities related to these arrangements are generally not reflected in our consolidated balance sheets. We do not expect any material impact on our cashflows, results of operations or financial condition to result from these off-balance sheet arrangements.

We had \$0.8 million and \$0.7 million of standby letters of credit as of June 30, 2026 and December 31, 2025, respectively. Our standby letters of credit outstanding generally relate to submitted proposals and performance guarantees, which are secured by our restricted cash. Refer to Note B of the accompanying notes to the condensed consolidated financial statements for additional information related to the Company's restricted cash.

Cash Flows

The table below summarizes certain information from the condensed consolidated statements of cash flows for the following periods:

(in thousands)	Six Months Ended	
	June 30, 2026	June 30, 2025
Cash, cash equivalents and restricted cash at beginning of year	\$ 95,183	\$ 49,071
Operating activities:		
Net income (loss)	(117,473)	(99,927)
Reconciling adjustments to net income (loss)	96,966	11,292
Changes in working capital	(11,095)	(44,109)
Net cash provided by (used in) operating activities	(31,602)	(132,744)
Net cash provided by (used in) investing activities	(16,441)	(161,729)
Net cash provided by (used in) financing activities	511,461	323,489
Effect of foreign currency rate changes on cash, cash equivalents and restricted cash	(883)	472
Net increase (decrease) in cash, cash equivalents and restricted cash	462,535	29,488
Cash, cash equivalents and restricted cash at end of period	\$ 557,718	\$ 78,559

Operating activities

Net cash used in operating activities decreased by \$101.1 million year-over-year. The change was primarily due to an increase of \$85.7 million in the effects of reconciling adjustments to net income (loss) and a decrease in cash used by working capital of \$33.0 million, partially offset by an increase of \$17.5 million in cash used related to the Company's net loss for the six months ended June 30, 2026 in comparison to 2025. The increase in non-cash adjustments is primarily related to increases in share-based compensation of \$15.0 million and depreciation and amortization expense of \$14.6 million both of which are primarily related to the Edge Autonomy Acquisition. The increase was also due to an increase in the loss recognized for the change in fair value of the outstanding private warrants of \$12.1 million year-over-year. Please refer to Note D – Fair Value of Financial Instruments of the accompanying notes to the condensed consolidated financial statements for additional information related to the fair value of warrants. The increase in non-cash adjustments is also due to the recognition of \$2.5 million in deferred tax expense for the six months ended June 30, 2026 compared to a \$32.1 million deferred tax benefit for the same period in 2025. The decrease in cash used by working capital was primarily due to an increase of \$25.3 million and \$19.4 million in deferred revenue and accounts payable and accrued expenses, respectively, for 2026 compared to a decrease of \$28.4 million and \$5.6 million in deferred revenue and accounts payable and accrued expenses, respectively, for 2025, as well as an increase in cash provided by accounts receivable of \$13.0 million year-over-year. These changes were partially offset by an increase in cash used for contract assets of \$22.7 million and inventory of \$31.6 million year-over-year. The increases in accounts payable and accrued expenses were primarily a result of timing of payments and recognition of liability. The changes in deferred revenue, contract assets and accounts receivable were primarily driven by the timing of billable milestones during the six months ended June 30, 2026 compared to 2025 and the changes in inventory are primarily related to the Edge Autonomy Acquisition.

Investing activities

Net cash used in investing activities decreased by \$145.3 million year-over-year. The change was due to cash used for the Edge Autonomy Acquisition in 2025 offset by an increase in capital expenditures primarily related to equipment and leasehold improvements.

Financing activities

Net cash provided by financing activities increased by \$188.0 million during the six months ended June 30, 2026, as compared to 2025. The increase was primarily due to net proceeds received under the Company's ATM facilities and exercise of private warrants of \$552.4 million during 2026, compared to \$328.7 million of net proceeds for an equity offering and exercise of public and private warrants during the same period in 2025. The increase was also due to the Company repurchasing shares of its Series A Convertible Preferred stock during the six months ended June 30, 2025 for which there is no comparable activity during the six months ended June 30, 2026. These increases were partially offset by a change to net debt payments of \$39.8 million from net debt proceeds of \$64.5 million year-over-year. The change is primarily due to the Company making a \$40.0 million prepayment on the term loans under the JPM A&R Credit Agreement, as amended, during 2026, compared to the original issuance of \$90.0 million in term loans under the same agreement in 2025. Please refer to Note H – Debt of the accompanying notes to the condensed consolidated financial statements for additional information related to the Company's debt obligations.

Foreign Currency Exposures

Our operations in Europe conduct transactions that are primarily denominated in euros, which limits our foreign currency exposure. However, changes in exchange rates will affect the Company's condensed consolidated financial statements as expressed in U.S. dollars.

Critical Accounting Estimates

There have been no material changes to our critical accounting policies and estimates as disclosed in our audited financial statements included in the Company's Annual Report.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Market Risk

We do not engage in speculative transactions, nor do we hold or issue financial instruments for trading purposes. In connection with the financing of our business, we have entered into variable rate term loans and revolver facilities, and, at June 30, 2026, we are exposed to interest rate risk on borrowings under our JPM A&R Credit Agreement. As of June 30, 2026, we had \$48.9 million of outstanding borrowings under the JPM A&R Credit Agreement, which bears interest at fluctuating interest rates based on the Secured Overnight Financing Rate ("SOFR"), plus an applicable margin. Accordingly, a rising interest rate environment could result in higher interest expense due on borrowings under the JPM A&R Credit Agreement, in which event we may have difficulties making interest payments and funding our other fixed costs, and our available cash flow for general corporate requirements may be adversely

affected. We estimate that a hypothetical adverse change in the SOFR rate of 100 basis points would have increased our annual interest expense by approximately \$0.5 million based on our outstanding debt as of June 30, 2026.

We may periodically enter into financial instruments to manage this risk, although we have not done so historically.

Foreign Currency Exchange Risk

We have exposure to various foreign currency exchange rate fluctuations for revenues and costs generated by our operations outside the U.S., which can adversely impact our net income and cash flows. Approximately 38% and 36% of our total revenues in the second quarter and first half of 2026, respectively, and approximately 22% and 20% of our total revenues in the second quarter and first half of 2025, respectively, were derived from our international operations, all of which were denominated in foreign currencies, primarily the euro. We do not enter into financial instruments to manage this foreign currency exchange risk. We estimate that a hypothetical 10% adverse change in the foreign currency rates for our international markets would have resulted in a negative impact on revenues of approximately \$4.4 million and \$7.6 million in the second quarter and first half of 2026, respectively.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) that are designed to ensure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate, to allow for timely decisions regarding required disclosure. Our management, including our Chief Executive Officer and Chief Financial Officer, does not expect that our disclosure controls and procedures or our internal control over financial reporting will prevent all errors and all fraud due to inherent limitations of internal controls. Because of such limitations, there is a risk that material misstatements will not be prevented or detected on a timely basis by internal control over financial reporting. However, these inherent limitations are known features of the financial reporting process. Therefore, it is possible to design into the process safeguards to reduce, though not eliminate, this risk. As required by Rules 13a-15(b) and 15d-15(b) under the Exchange Act, we have carried out an evaluation, under the supervision and with the participation of our management, including our principal executive officer and our principal financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based on such evaluation, our principal executive officer and principal financial officer concluded that, as of the end of the period covered by this report, certain of our disclosure controls and procedures were not effective as of June 30, 2026 due to the material weaknesses in internal control over financial reporting described below.

Notwithstanding such material weaknesses in our internal control over financial reporting, our management, including our principal executive officer and principal financial officer, concluded that our consolidated financial statements in this Quarterly Report on Form 10-Q present fairly, in all material respects, our financial position, results of operations and cash flows for the periods presented, in conformity with U.S. generally accepted accounting principles.

Material Weakness in Internal Control Over Financial Reporting

A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of our annual or interim consolidated financial statements will not be prevented or detected on a timely basis.

Management identified the following material weaknesses in internal control over financial reporting as of June 30, 2026:

- For all of our U.S. operations, except Redwire Defense Tech Intermediate Holdings, LLC, we designed process-level control activities pervasive across our financial reporting processes, but we were unable to fully deploy those process-level control activities with sufficient time to demonstrate their operating effectiveness.
- For our European and Redwire Defense Tech Intermediate Holdings, LLC operations:
 - Due to insufficient time and resources, we did not (i) establish effective information technology general controls ("ITGCs"), specifically program change controls and access controls, that support the consistent operation of the Company's IT operating systems, databases and IT applications, and end user computing over all financial reporting; and, ii) have policies and procedures through which ITGCs are deployed across the organization. Automated process-level controls and manual controls dependent upon the accuracy and completeness of information derived from IT systems were also rendered ineffective because they are affected by the lack of ITGCs.
 - As a result, we did not effectively design, implement or operate process-level control activities pervasive across our financial reporting processes.

The material weaknesses above did not result in a material misstatement to the condensed consolidated financial statements as of and for the three months ended June 30, 2026. However, the control deficiencies described above created a reasonable possibility that a material misstatement to the condensed consolidated financial statements would not be prevented or detected on a timely basis if one were to occur.

Management's Remediation Plans

Management, with oversight from the Board of Directors, continues to implement a remediation plan to address the material weaknesses. The Company continues to make progress in its remediation of the material weaknesses as further described below.

- For all of our U.S. operations we have designed and implemented both manual and automated process-level control activities but due to insufficient time and resources, we were unable to demonstrate their operating effectiveness. We plan to do so, through testing, during 2026.

For our European operations and Redwire Defense Tech Intermediate Holdings, LLC, we will continue our remediation efforts including:

- Implementing one enterprise resource planning ("ERP") system for our European operations and expanding the implementation of our U.S. ERP system for Redwire Defense Tech Intermediate Holdings, LLC.
- Continuing our engagement of a third-party global consulting firm to accelerate the deployment of ITGCs and manual and automated process-level controls across our financial reporting process.
- Continuing to assess the specific training needs of personnel and developing and delivering training programs designed to uphold our internal control standards.

We believe the above actions will be effective in remediating the material weaknesses described above. However, the material weaknesses cannot be considered remediated until remediated controls operate for a sufficient period of time and management has concluded, through testing, that these controls are operating effectively. Although we intend to complete the remediation of remaining processes as promptly as possible, we cannot at this time estimate how long it will take to remediate the material weaknesses described above. We may discover additional material weaknesses that require additional time and resources to remediate, and we may decide to take additional measures to address the material weaknesses or modify the remediation steps described above.

If we are unable to successfully remediate existing or any future material weaknesses in our internal control over financial reporting, the accuracy and timing of our financial reporting may be adversely affected, investors may lose confidence in our financial reporting, and/or we could become subject to litigation or investigations by the New York Stock Exchange, the SEC or other regulatory authorities.

Changes in Internal Control over Financial Reporting

There has been no change in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the three months ended June 30, 2026, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting. We are in the process of integrating Redwire Defense Tech Intermediate Holdings, LLC into our overall internal control over financial reporting processes.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We are subject to litigation, claims, investigations and audits arising from time to time in the ordinary course of business. Although legal proceedings are inherently unpredictable, we believe that we have valid defenses with respect to any matters currently pending against Redwire and we intend to defend ourselves vigorously. Excluding pending matters referenced below, the outcome of these matters, individually and in the aggregate, is not expected to have a material impact on our condensed consolidated financial statements.

For additional information on pending matters, please refer to Note L – Commitments and Contingencies of the accompanying notes to the condensed consolidated financial statements. For additional information on the risks associated with the existing and future investigations, lawsuits, arbitration, claims, enforcement actions and other legal proceedings, please refer to Item 1A. "Risk Factors".

ITEM 1A. RISK FACTORS

As of June 30, 2026, there have been no material changes from the risk factors previously disclosed in the Company's Annual Report on Form 10-K for the year ended December 31, 2025.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

None.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

ITEM 5. OTHER INFORMATION

During the three months ended June 30, 2026, none of the directors or officers of the Company informed us of the adoption, modification or termination of a “Rule 10b5-1 trading arrangement” or a “non-Rule 10b5-1 trading arrangement” (as each is defined in Item 408 of Regulation S-K).

ITEM 6. EXHIBITS

The following is a list of all exhibits filed or furnished as part of this report:

Exhibit Number	Description
10.1	Equity Distribution Agreement, dated as of May 6, 2026, by and between Redwire Corporation, Truist Securities, Inc., J.P. Morgan Securities LLC, BofA Securities, Inc., TCBI Securities, Inc., doing business as Texas Capital Securities, A.G.P./Alliance Global Partners, B. Riley Securities, Inc., Canaccord Genuity LLC, H.C. Wainwright & Co., LLC and Roth Capital Partners, LLC. (incorporated by reference to Exhibit 10.2 to the Quarterly Report on Form 10-Q filed by the Registrant on May 7, 2026).
10.2	Equity Distribution Agreement, dated as of June 9, 2026, by and between Redwire Corporation, Truist Securities, Inc., J.P. Morgan Securities LLC, BofA Securities, Inc., TCBI Securities, Inc., doing business as Texas Capital Securities, A.G.P./Alliance Global Partners, B. Riley Securities, Inc., Canaccord Genuity LLC, H.C. Wainwright & Co., LLC, KeyBanc Capital Markets Inc. and Roth Capital Partners, LLC. (incorporated by reference to Exhibit 1.1 to the Current Report on Form 8-K filed by the Registrant on June 9, 2026).
10.3	Amendment No. 1 to Amended and Restated Credit Agreement, dated as of June 30, 2026, by and among Redwire Defense Tech Intermediate Holdings, LLC, as the Parent, Redwire Defense Tech Intermediate II Holdings, LLC, as the Lead Borrower, the other borrowers party thereto from time to time, the other guarantors party thereto from time to time, JPMorgan Chase Bank, N.A., as Administrative Agent and Collateral Agent, and the Lenders party thereto from time to time (incorporated by reference to Exhibit 10.1 to the Current Report on Form 8-K filed by the Registrant on July 1, 2026).
31.1	Certification of Chief Executive Officer (Principal Executive Officer) Pursuant to Rules 13a-14(a) and 15d-14(a) under the Securities Exchange Act of 1934, as Adopted Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
31.2	Certification of Chief Financial Officer (Principal Financial Officer) Pursuant to Rules 13a-14(a) and 15d-14(a) under the Securities Exchange Act of 1934, as Adopted Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.

**CERTIFICATION PURSUANT TO
RULES 13a-14(a) AND 15d-14(a) UNDER THE SECURITIES EXCHANGE ACT OF 1934,
AS ADOPTED PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, Peter Cannito, Chief Executive Officer, President and Chairman, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q for the period ended June 30, 2026, of Redwire Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
